"LONG DISTANCE"

Telephone service with the outside world is now an established fact. Las Vegas can talk to any one of the 18,500,000 telephones in the United States as well as to thousands more in many foreign countries.

The inauguration of long distance telephone service marks an important step in the progress of Las Vegas. This service will be open to the public beginning February 1, 1929.

It will be our aim to keep Las Vegas abreast of the times, ready to meet not only the needs of today, but also those of tomorrow, and we will find both pleasure and practical advantage in the respect and good will of the telephone using public.
