

CITIZENS OF LAS VEGAS

Lord Beacon said: "The easy transportation of men and things from place to place, a fertile soil with industry, makes a city great."

Boulder Dam, today, is America's greatest magnet.
It is bringing to Las Vegas men who loom large in the world of finance.
These men will build beautiful homes and erect great office and business buildings.

Their money and energy will develop water and power, factories and industries, mines and agriculture, horticulture and transportation.

Millions and millions of dollars go each year from Los Angeles to the Imperial and San Fernando Valleys for their products.

When you are ready to sell to Los Angeles it will buy millions of dollars worth of your products.

YOU WILL BUY SUCH OF ITS GOODS AS YOU DO NOT PRODUCE,
 THUS YOU WILL BOTH PROSPER.

It is inevitable that the vast, fertile "Valley of the Meadows" will become another Imperial Valley, and you have many additional attractions and advantages.

IT FOLLOWS THAT LAS VEGAS WILL BECOME A LARGE AND PROSPEROUS CITY.

-- THIS IS SAID IN ALL SINCERITY --

As an important part of the huge, growing back country of Los Angeles, your city has prosperity awaiting it, right at hand.

Don't let the newcomer get all of this prosperity as has been the case in so many cities.

Many people stand so close to the forest they can't see the trees-

DON'T DO IT.

Get right into the middle of all this development, do your share and get your share.

T. J. Lawrence Incorporated, is investing its money and energy in promoting a highly restricted home-building district.

A high-class, modern, income and business district.

It is telling California all about it through the newspapers.

-- This Benefits All Of Las Vegas --

LAS VEGAS and LOS ANGELES

NEW ORCHESTRA MOVES TO TOWN

By YE RAMBLER

"The Village Orchestra," a gang of seven of the boys from the Pantages and Orpheum circuits who are in the habit of wringing a riot of melody from musical instruments, have established themselves in this city, it was revealed to Ye Rambler today when, strutting past a certain domicile, he was attracted by sundry musical sounds.

Frodding into the situation, Ye Rambler found within Jack Lorraine and six proteges, the orchestra which recently paraded the street in "hick" costumes advertising a certain subdivision, and which will play for the cowboys' dance the night before the rodeo.

Alex Alexander, the composer of "Alexander's Ragtime Band," and leader of Alexander's Ragtime Orchestra, was "drumming the traps." He is known as a trick drummer. The other boys, who have worked together on circuits for four years, are Ernie Allen, Chet Wilson, Jack Maynard, Bill Crawford and John Cornissel, so 'tis said.

This orchestra has played with the Princess Gollywog musical comedy troupe and with the Radio Television company.

CZECHS SUFFER IN FLOOD
BRATISLAVA, Czechoslovakia, Mar. 23 (AP)—Thousands of families along the right bank have lost their homes, cattle and other belongings in the worst floods since 1872. Soldiers were sent into the district before the waters rose to awaken the inhabitants and aid them in reaching safety.

Scientists say that the average female house mosquito has 159 billion offspring at the end of the year. Here is some real work for the birth control advocates.

Europe has opened up a college for the training of apartment house janitors. No doubt the school's motto will be "keep everybody cool."

GREATER LOVE HATH NO MAN THAN THIS, THAT A MAN LAY DOWN HIS LIFE FOR HIS FRIENDS.
