We are telling Los Angeles and the world, through newspapers, of the possibilities of Las Vegas.

We have employed one of the leading industrial experts of the country to tell the world what you have and we are getting practical responses. The articles by Willis Owen are attracting widespread attention.

We are doing our part to bring to Las Vegas people with means who will develop our farms, erect factories, establish industries, develop our mines, create payrolls and bring well-balanced prosperity to this city and we sincerely ask your co-operation.
