

TWO MEN, GIRL SEVEN, KILLED IN U. P. ACCIDENT AT CALIENTE

ORDINANCE FOR NEW ORNAMENTAL STREET LIGHT SYSTEM PASSED

City Council Names Ralph Waggoner of Los Angeles Engineer to Draw Up Plans For Proposed Installation; Special Assessment District Set Forth in Measure.

An ordinance providing for installation of an ornamental lighting system for the downtown district of Las Vegas, and a resolution appointing Ralph Waggoner, Los Angeles street lighting engineer, as engineer for the project.

Thursday night, and the ordinance will come up again at 10 a. m. June 22.

Freemont, Main and Fifth streets will be lighted with the special system, according to the ordinance, and a special assessment is planned to pay for the system.

Waggoner was appointed in the resolution unanimously passed by the commissioners and was authorized to go ahead immediately with the preparation of an estimate of the expense, the planing and diagramming of the work and locality, and preparation of a special assessment map, also of specifications and plans. Waggoner is to supervise the construction and installation of the system, also.

Data to be Filed. Waggoner is to file in the city clerk's office as soon as possible two information sheets, one of which will show the location of the lighting standards and conduit feed points, and the proposed assessment district, and the other of which is to show the design, actual measurements in detail of the pipes and reinforcement construction of the foundation to the ornamental posts, which are to be excavated, centrifugally cast, according to the ordinance.

The matter of suitable street lighting came up four months ago for consideration, and the council passed favorably upon the proposition of installing new equipment for the business streets, definite action being withheld pending satisfactory investigation of the problem in all its angles.

Study Is Made. Officials, who have been making a study of the situation, now feel they have enough information upon which to base definite action.

The specification of the areas to be included in the special assessment district are set forth in a legal notice published elsewhere in this paper. The streets to be lighted are as follows:

In Clark's Las Vegas Townsite The easterly side of Main street, from the northerly side of Bridger street to the southerly side of Stewart street.

Freemont street from the easterly side of Main to the westerly side of Fifth.

The westerly side of Fifth street from the northerly side of Bridger to the southerly side of Stewart.

In Hawkins' addition: The easterly side of Fifth street from the northerly side of Bridger street to the southerly side of Stewart.

Smith Will Run Again, Says Hefflin

Lipkin Here From Chicago

\$75 Added to Log Cabin Fund of Boy Scouts

Penney's, Odd Fellows, Mesquite Club, W. E. Hawkins and H. D. Buzick Are Newest Contributors to Cause of Youth.

A \$75 boost in the contributions to the boy scout log cabin fund last night swelled the total to \$365. "That's certainly fine, and we're well on our way," said K. O. Knudson, in charge of the drive, last night, "but we need plenty more, and I want to assure citizens of Las Vegas again that the money will go to a worthy cause in the rebuilding of our coming manhood."

- Those who contributed during the last two days are: J. C. Penney company, \$5; Odd Fellows' lodge, \$25; Mesquite club, \$10; W. E. Hawkins, \$10; H. D. Buzick, \$5.

Total to date, \$365. Names of future contributors will be published with these each issue of the Age.

Chief Justice Taft Taken to Hospital

WASHINGTON, June 7. (AP)—William H. Taft, chief justice of the United States, was rushed to a hospital tonight suffering from gall bladder trouble. His condition was not pronounced serious by doctors, who said he would require a complete rest of several days.

Gratto Funeral to Be Held at Caliente

The funeral of Earl Gratto, former Las Vegas druggist, will be held this afternoon at two o'clock at Caliente where Mr. and Mrs. Gratto have resided for the past ten years. Funeral services will be conducted by Rev. Boyd Parker, rector of Christ church, Las Vegas.

Earl had been gradually failing since his discharge from the army following the war and was for several years an inmate of the government hospital at Denver. Mrs. Gratto has carried on the drug business at Caliente during Mr. Gratto's illness.

Mr. Gratto's death, which occurred in Denver several weeks ago, was the direct result of tuberculosis contracted while in the service. In spite of every care his condition every year became more serious until death intervened.

The many friends of Mr. and Mrs. Gratto in this city are grieved at the untimely end of this fine young man. The Age desires to express the sympathy of the entire community.

Students Flaunt Skull, Cross Bones In Faces of Police

BOGOTA, Columbia, June 7. (UP)—Striking students protesting against mounted police charging a student parade through the streets of the capital, and a battle with police. They carried banners bearing pictures of skull and cross bones. They marched in front of the Presidential palace late this afternoon and refused to disperse on police orders. Police fired on the demonstrators, injuring several.

Life Preserver Tallman Used Found in Bay

Missing Murder Subject Believed to Have Used Life Preserver in Escape to Oakland.

L.A. Detective Let Out

San Francisco Woman Is Questioned in Connection with Murder.

SAN FRANCISCO, June 7.—(AP)—A life preserver from the steamer "Admiral Benson" was found floating in the inner harbor at the foot of Fourteenth street in Oakland today. Police said that this was an indication that William Tallman, missing radio operator sought as a suspect in the slaying of Mrs. Virginia Patty in Los Angeles may have escaped the ship by swimming to the Oakland side of San Francisco Bay. Tallman's whereabouts tonight were as much of a mystery as when police boarded the vessel Wednesday night and found the lock of his state room unsewered from the inside and Tallman gone.

One of Six Caught in Federal Dry Raid Out on Bail; Other Five Stay in County Bastile

Five men are in jail and one is out on \$2,500 bond as the result of liquor raids conducted Thursday and yesterday in and around this city by nine federal agents from Salt Lake City.

Great quantities of whiskey, beer and mash, besides stills and brewing equipment were destroyed in the series of raids which made an appreciable dent in illicit liquor making and trafficking in this vicinity.

The men taken into custody are as follows: S. (Dad) Custer, for possession and sale of liquor, out on \$2,500 bond.

Bill Clayton, for possession and transportation of whiskey, in jail with bond set at \$2,000.

J. T. Flynn, for possession of beer and whiskey, in jail with bail set at \$1,000.

Walter Auxier, for manufacture and possession of whiskey, also possession of fermenting mash and implements designed for the manufacture of intoxicants, in jail, with bond set at \$2,500.

R. B. Free and Mark Dean, charged together with manufacture and possession of beer, both in jail with bail set at \$2,000 each.

These men were arraigned before U. S. Commissioner W. J. Hooper late yesterday, complaints filed against them and bonds set. All waited preliminary hearing to the next term of federal court, according to the officers.

Two officers spent two weeks paving the way for these raids. It was revealed last night. They moved about the vicinity dressed as "farmers," sampling and looting liquor here and there with the view to having "plenty of goods" on those whom they planned to raid.

Nine stills were destroyed by the raiders, as were more than 200 gallons of whiskey, 3000 gallons of mash and 500 cases of beer. Two trucks and another automobile were taken, and probably will be sold, it was stated.

FALLING TIMBERS TAKE LIVES OF TWO MEN AND GIRL IN CALIENTE TUNNEL

Nine Receive Injuries in Tunnel West of Caliente When Timbers Crash to Floor—Traffic Not Delayed—Injured Rushed to Los Angeles.

CALIENTE, June 7. (Special to the Age)—Wm. C. Benson, married, one seven-year-old girl of Parowan, Utah and Fred B. Fisher, unmarried, of Caliente, Nevada, were killed at Tunnei Nine, of the Los Angeles and Salt Lake Railroad, of the Union Pacific System, six miles west of Caliente at 2 p.m. this afternoon when the back timbering gave way over sixty feet midway in the tunnel which is in the process of being widened.

About fifteen men were working, some above the old timbering and some below, when the roof timber crashed with a roar.

Benson was killed instantly and Fisher died two hours later.

John W. McCarthy and Alton H. Pullock were seriously injured. Fred White, Charles Karstens of Des Moines, Iowa, Paul Warke and Andrew W. Pearson were also slightly injured. All the men were rushed to a Los Angeles hospital on Union Pacific train twenty-five.

Traffic was not delayed as no large rock fell in the tunnel and a large crew of men cleared the track of the fallen timbers and lagging.

Coroner E. C. D. Marriage, of Caliente, took charge of the inquest and the railroad company will make a full and complete investigation of the accident which was apparently unavoidable.

Boy Crushed to Death While Hitching Ride

SIX-year-old Frank Small was crushed to death here last night when he lost his grip on the rear bumper and fell under the reversing wheels of an automobile on which he was "hitching" a ride.

The driver of the machine, Mrs. Margaret Edwards, said she was unaware that the youth was clinging to her car when she put it in reverse and backed over his body.

The building will have complete air-cooling system. The interior will be of white enamel, the stalls of white tile, and the counters and cases with marble tops, said Enler.

The front part of the second floor will be devoted to offices, probably for attorneys or other professional men, while the remainder, temporarily at least, will be a hall.

"The building will be within six blocks of town, Fifth and Fremont," said Enler.

This market will be but one of a group of activities to be pushed by the new firm, represented by Mr. Enler, who is former head of the health department of the city of Oakland. Enler will be in charge of business affairs pertaining to the construction of the market, his son, Ernest T. Enler, now of Oakland, to take over the management of the market when completed.

Enler expressed himself as being so well pleased with possibilities in this city that he is going to move his family here and will build a new home here in the near future.

OAKLAND, June 7. (UP)—Although denied by company officials, it was announced by a strike committee today that between 800 and 900 men went on strike today at the Fisher Body company plant here.

News From The Sheriff's Office

Nothing to report.

British Women's Power Shown, Miss Named on Cabinet

LONDON, June 7. (UP)—The cabinet of the new labor government, which was announced officially tonight by Ramsay MacDonald, the party leader, and in which MacDonald will be prime minister, will include a woman, Miss Margaret Bondfield, for the first time in the history of Great Britain. The appointment of Miss Bondfield, who will be minister of labor, reflects the great growth of women's rights in England. Women outnumbered men in the general election last week.

Germans Accept Young's Scheme For Reparations

Obligation of \$8,813,400,000 Accepted by Loser of War; Payments to Be Made Over 58-Year Period.

By SAMUEL DASHIELL, United Press Staff Correspondent

PARIS, June 7. (UP)—The Owen D. Young plan, devised to settle finally and definitely Germany's world war obligations, was formally adopted today by the experts of Germany and her six creditor nations who have been working on the problem for four months.

The Young plan was signed by the experts late today, ready for transmission to the governments involved as a unanimous solution. Under the Young plan, proposed by the American financier who sat as chairman of the conference, Germany accepts a present cash obligation of approximately 37,000,000,000 gold marks, (\$8,813,400,000, a gold mark being worth 23.82 cents).

The money will be paid in installments, however, over a period of slightly more than 58 years, with compound interest at 5 1/2 percent. Germany thus will actually pay approximately 97,000,000,000 marks (\$23,105,400,000).

The heaviest portion of the annuities, averaging 2,050,000,000 marks annually, will be paid over the first 37 years. The annuities during the final 21 years will average about half that.

The final draft of the Young plan, adopted today, represented the results of four months of painstaking negotiations between Germany on the one side, and France, Britain, Belgium, Italy, Japan and the United States on the other.

All the delegations were officially appointed by the governments except the American which came to Paris as unofficial helpers on the invitation of the other powers.

Arm Torn Off Man Signals Vainly for Help

FRESNO, Cal., June 7. (UP)—A man with one arm torn off at the shoulder signalled vainly for aid from a half dozen motorists on a principal thoroughfare near here last evening before he found aid.

The man was Garabed Bedrosian, who was picked up by J. H. Rutledge of Clovis. Bedrosian was treated at the city emergency hospital and later in a private hospital. His condition was said to be critical.

Bedrosian was working in a 10-foot-deep pumping plant on a ranch when the shaft caught his clothing and jerked his hand off his arm about eight inches from the wrist. The clothing failed to free and his arm again was amputated about four inches from the shoulder.

TRI-STATE AGREEMENT MAY BE RESULT OF HOTEL ROOM CONFABS

Informal Meeting of Colorado River Delegates Regarding Water Division Expected to Bring State Representatives Nearer to Complete Understanding and Pact.

WASHINGTON, June 7.—(UP)—Hotel room conferences by delegates from California, Arizona and Nevada last night and early today may result in adoption of a tri-state compact for division of the Colorado river waters when they assemble formally later, it was believed today.

The problem of equitably dividing the 8,500,000 acre feet of water they share jointly has been reduced to concrete terms for the delegates in formulas submitted to the conference yesterday.

Immediately after it was submitted the commissioners agreed progress would be accelerated by informal discussion by groups. The meeting was then adjourned until noon.

TRI-STATE AGREEMENT MAY BE RESULT OF HOTEL ROOM CONFABS

Informal Meeting of Colorado River Delegates Regarding Water Division Expected to Bring State Representatives Nearer to Complete Understanding and Pact.

New Market Will Be Built In Las Vegas

Oakland Capitalists Forming Corporation Which Will Start Construction of Two-story Building Soon.

Construction this summer of a new and up-to-date two-story market building, 100 by 140 feet, with ten or more stalls is promised by Ernest J. Enler, of Oakland, representative of a group of eleven Oakland capitalists who are forming a Nevada corporation for the new market.

Construction of the building, which will be built of Spanish stone, will commence within thirty days, Enler predicted last night just prior to leaving for Oakland, where he will attend to completion of arrangements. He expects to return to Las Vegas within twenty days, and work will be started soon afterwards, he stated, the entire construction to occupy a period of some thirty or forty days.

The exterior of the structure will be speeded up by the fact that the Spanish stone will be used, for this will come in large units and will make a wall a foot thick, it was stated.

The material is now being mined a hundred miles from Las Vegas, and is a newly-discovered fireproof material which is highly proof against heat. This will insure the new market of a maximum of coolness in summer, Enler pointed out.

The market will include a first-class butcher shop with new and modern cooling equipment; a fish stand; a butler, egg and cheese stand; and up-to-date bakery; a fruit and vegetable stand; a florist stand; a delicatessen for service of the many apartment house dwellers who are certain to come to Las Vegas; a grocery; a lunch counter, an ice cream fountain, and other features.

Several local merchants will have stands there in addition to their present places of business, said Enler.

The building will have complete air-cooling system. The interior will be of white enamel, the stalls of white tile, and the counters and cases with marble tops, said Enler.

The front part of the second floor will be devoted to offices, probably for attorneys or other professional men, while the remainder, temporarily at least, will be a hall.

"The building will be within six blocks of town, Fifth and Fremont," said Enler.

This market will be but one of a group of activities to be pushed by the new firm, represented by Mr. Enler, who is former head of the health department of the city of Oakland. Enler will be in charge of business affairs pertaining to the construction of the market, his son, Ernest T. Enler, now of Oakland, to take over the management of the market when completed.

Enler expressed himself as being so well pleased with possibilities in this city that he is going to move his family here and will build a new home here in the near future.

OAKLAND, June 7. (UP)—Although denied by company officials, it was announced by a strike committee today that between 800 and 900 men went on strike today at the Fisher Body company plant here.

Lindy and Bride in York Harbor

KENNEBUNKPORT, Me., June 7. (UP)—The little motor yacht Mouette lay at anchor in Cape Porpoise harbor, two miles east of here today, and it was known definitely that aboard were the elusive honeymooners, Colonel and Mrs. Charles A. Lindbergh.

Proceeding up the Atlantic coast by easy stages, apparently headed for the Morrow estate at North Haven, Me., the newlyweds kept the world in doubt for 10 days after their sudden marriage at Englewood, N. J.

Last night, when the trim cabin cruiser put into York harbor, a few miles south of here, for fuel, the happy bridegroom appeared on deck and faced a crowd of 100 villagers without attempting to hide his identity.

His bride, the former Anne Morrow, remained in one of the Mouette's two cabins, and townsfolk speculated as to whether she might be seasick. The water outside the harbor was choppy.
