REET LIGHTING PLAN

IE CITY COMMISSIONERS have published notice of intention to install an ornamental street lighting system Main street between Bridger and Stewart: on Fifth been Bridger and Stewart; and on Fremont between Main

The matter has been advocated by property owners hat district for several months.

The action of the board marks another step forward the building of the new Las Vegas. An adequate system treet lighting will not only add to the beauty and conlence of the city, but will have a very important effect tabilizing and increasing property values in the business

Plans for the improvement have been worked out efully by the city planning commission and the entere should meet the unanimous approval of the property ners affected.

COLD MINING REVIVAL

THROUGHOUT THE WEST there are many evidences that interest in gold mining is being rapidly increased.

Most of the interest just now is centered in the new rara district in southern Nevada. Many claims have been ated, considerable work is under way and some bullion being shipped.

Weepah, Wahmonie and other recent and more or less aporary camps, are by no means lost effort. Out of the ivity stimulated by those camps the Carrara district was n. Prospectors are eager to scour the desert and mountala country in search of gold if there is public interest. so, the majority of prospectors must have supplies in der to continue their pursuit of the yellow metal, and what the public contributes in that way must be considered a necessary part of the prospecting game.

Tonopah and Goldfield were discovered as incidents in e speculative activity at Belmont and other camps in that ction. Had it not been for some of the prospecting failrs, those great camps with their production of wealth uning into the hundreds of millions would not have been and perhaps for many years.

Carrara gives great promise of a permanent mining trict. Good ore is being found in many places and if it in sufficient quantity another great source of wealth ill be established.

But, whether Carrara is it or not, we of Nevada must ontinue to encourage the prospector in his lonely quest. stands to reason that there are bonanzas of fabulous ealth in southern Nevada which have not yet been rought to light. The more activity we can induce the oner will be found the still hidden ore bodies, as rich as the Comstock, Tonopah or Goldfield. It is worth taking a hance.

AVING CONTROVERSY

THE AGE has been asked what good it can do by discuss- some gesture the new dressing and his short acquaintance with ing the matter of the paving when it has gone so far

The Age admits that so far as the plans of the city only possesor of such a residencgineer with the deep cuts on certain streets and other atures which have aroused so much criticism, the mat- his activities from his own to the is settled. It is too late to change the specifications.

But, the Age points out, it is not too late to demand Hollywood still is buzzing about at the property owners be given that which the city ntracted for and for which the property owners must y. If the work is being done well and in accordance with le contract and specifications we must be satisfied.

contract and specifications we must be satisfied.

Gilbert doesn't appear to think ony of sufficient importance to off-his marirage should be considered set either of the weddings. the right to complain, but they are in duty bound to do so. The Age believes that the city commissioners desire so act that they will give the property owners the totection to which they are entitled.

THE "OUTSIDE OF CITY" SHERIFF

F OUR SHERIFF is really sheriff for only that part of Clark county outside of Las Vegas, we wonder just hearing gory tales of the bravery and Lila Lee, with Mickey Benwhere the necessity is for the additional deputy recently and sometimes ruthlessness of the next and Kenneth Harlan in sup manded by him.

Las Vegas has grown, to be sure, but the rest of the nickname of "devil-dogs" comes rine life at such times. ounty is in just about its former sparcely populated con-bulldog fighters who never give ion and could scarcely require another deputy to keep up, and throw themselves into the in due bounds.

NEWS FROM THE SHERIFF'S OFFICE

Nothing doing. Sitting heavy.

RAND JURY CALL

THE FORTHCOMING GRAND JURY should prove a presented in salutatory influence upon the community. The Age has played Monday night at El Patio naked except for fighting trunks, ever been a convert to the idea that rotten moral con- theater, based on the activities of battle gloriously in a packed arena dicions and lax law enforcement breed prosperity.

On the other hand, the Age does not expect Las Vegas to be perfectly pure and spotless. It seems that there should be a zone in which frail humanity can walk with dignity without going to either extreme.

The Age hopes to see Las Vegas a safe, sane and sober office has been established by a covered four years ago when a rab- who was on the bank a snort cus-The report received May 12, 1927 pottery, has once again started. She swam for the boy and after a short struggle, pulled him out on my with reasonable and fair enforcement of the law and officers.

Water Well Drilling For Airport Started

Drilling equipment for the puting down of the water well on the site of the proposed airport, seven miles north of the city, is on the ground and drilling will go ahead immediately, according to P. A. Simons of the coroparation which plans to build the neid.

Great confidence in the possibility that water will be struck was expressed yesterday by Simon, who stated that, while it is not expected they will get an artesian well, a pumping well is expected within fifty feet or so of the surface.

A section house well two or three

miles to the west of the field site has given water, he stated, as have also the Connelly well, which came in at 30 feet, and the Jackie Hill well, a couple of miles east on the road, which came in at about 25

C. D. Baker is to be on the ground starting the surveying today it was stated yesterday.
