Buy Golden Ace

A proven mine that is shipping high grade ore and has a large connage of mill ore in sight.

Mill and cyanide plant are being assembled.

By October 1st mill should be completed and in operation, and at that time we expect to see the company making a net profit from shipping and milling orc of at least \$85,000 per month and the shares selling at several times the present market price. We regard Golden Ace as a potential \$10,000,000 to \$15,000,000 mme, and it is right in the back yard of Las Vegas.

The round trip is an easy day's drive. Go and see for yourself. Everything is open for inspection.

We would like to have at least 100 stockholders in Nevada. The men working in the mine and the people of Beatty are buying. They know the property, and they are confident that

it is going to develop into another big Nevada gold mine.
