**PROFESSIONAL CARDS**  
At Walker Lake, where the work is to be carried on, the railroad has built switches for material tracks and the navy department has just finished a new steel garage building. The roads are being put into excellent shape over the project. The navy has its water problem, too, he said yesterday, having bought two ranches in the nearby canyons, to supply water, and it is understood that the cast iron mains were just shipped out of Pittsburgh a short time ago, the commander having just received notification. "No construction work has started as yet," said Sherman, and before there is going to be any great amount of work under way, there will first be office buildings and mess-halls and bunk houses erected for temporary use, at present there are two such buildings there. "Leaving Vegas I was able to drive thirty to forty miles an hour, except for three short stretches, between Beatty and this city, then after leaving Beatty there are no roads—it's a drunken man's delight. "From Goldfield to Tonopah a stretch of highway is being built that will be a wonderful improve-

ment over the "Dip o' Death" that you are now forced to travel. "From Tonopah on to fifteen miles this side of Hawthorne there is a fine gravel road. "With cool winds sweeping across the lake, the little city of Hawthorne is very pleasant, and the nights are cool enough that blankets are right in line. "Some day, when matters are all adjusted, there will be a great deal of activity in that section, but at present there is no boom on at Hawthorne or Walker Lake. Sherman told of his visit to the office of Commander C. H. Cotler, in the county court house, where, he said, there is plenty of activity. Sherman went to Hawthorne to arrange preliminaries for the taking of motion pictures there as the building activity progresses.
