A TOUGH LIFE

What He Learned at College

All capped and gowned, dignified to the "nth" degree, but with a grin struggling through, a proud senior was returning from the graduation exercises of the University of South Carolina. The sad echoes of his last "We hail thee, Carolina," sung within alma mater's walls were still ringing in his ears. In his hands he clutched the hard-won sheepshead. "I am through; educated!" proclaimed his every appearance. But this is what he overheard to say to his companion in the heat and stress of commencement: "I know just enough to know I

don't know anything."

Hark! this sage young man gathered true fruits of "education?" A peep into the unlimited store of the world's knowledge has shown him something of what he has yet to learn, and it is hoped, the paths to follow in order to learn more; also if he has had even a few of the right kind of educators, the desire follow these paths.

Let us hope that many young graduates share the wisdom of this one—Columbia State.

We always thought it funny to call a chicken "dressed" when it was stripped. Looking about the streets we still think the same way.
