HELL POPPING IN JERUSALEM.

KEEPING ITS ancient reputation for tragic events fresh before us, Jerusalem and the whole of Palestine are again the scene of disorder and death.

We had hoped that one of the results of the World War, the assumption of a protectorate over Palestine by the British government, would restore Jerusalem to its ancient race so that in peace and quietude they might again bask in the holy light shining down through the centuries of history.

But the millions of the Moslem faith are jealous of the Jews and are raiding and killing wherever they find an unarmed colony of Jewish people.

Among those killed in the recent raids are at least twelve American citizens of the Jewish race. President Hoover has caused a very urgent request to be made to the British government to restore order in Palestine and protect American citizens.

It will be remembered that following the World War America was urged to assume the protectorate over Palestine and refused. The decision was a wise one no doubt, but nevertheless, we cannot help wondering if the entrance of Uncle Sam into Palestine might not have been an act of mercy which would justify the trouble and expense involved.

A WONDERFUL JOURNEY.

AS THIS is being printed the Graf Zeppelin is racing its way through the clouds on its approach to New York where the around-the-world flight began.

Buffeting the wind, breasting the driving rains, hail and lightnings, the great ship has circled the globe in about 21 days, breaking all records for travel of any kind.

The world-circling flight of the Zep is an epochal event. Future developments in air travel will be dated from and compared with this event and a thousand years hence the noble flight will be told in history as one of the great achievements of mankind.

FEDERAL BUILDING SITE.

A CALM review of the situation has convinced the great majority of the people of Las Vegas that the decision to recommend a portion of the park land on Stewart street as a site for the new federal building was a wise one.

When advised of the decision some drawbacks it is admitted, but the benefits far outweigh the objections. On the other hand there is no site which can possibly be obtained to which there would not be some disadvantages and some objections by those whose interests were not served as they wished.

Some of the advantages of the Stewart street site are as follows:

The site is only two blocks from the business center of the city.

It is within reasonable distance of the railroad station. It offers more ground for beautification than any other site.

It will be in effect a part of our public park and will form a nucleus about which further improvements will be made. And it will furnish a powerful incentive to the early improvement of the whole park site.

It is given to the government free of cost with the understanding that the \$20,000 appropriated for the purchase of a site will be added to the cost of the building.

Most important of all reasons advanced in favor of the park site is the fact that it does away with all necessity for delay. Las Vegas is now, after years of effort, put on the building program of the government. Prompt compliance with the requirements of a site will assure us a splendid federal building at the earliest possible moment which the preliminary work will permit.

On the other hand, we know that delay now means that we lose our place on the program and that in all probability it will be at least two years before we can again place ourselves in our present favorable position.

It would seem that in a matter which will have so great and such immediate effect upon the prosperity of Las Vegas there should be no division. Moreover, the need for increased post office facilities will be urgent before a federal building can be built, even if there is no delay in proceedings.

FEDERAL COURT.

THE NEED which has been felt for several years for a United States court in the southern part of the state may readily be met if quarters are provided for it in the proposed federal building.

The Chamber of Commerce at its last meeting gave its approval to the action of the Bar Association and promised hearty cooperation in efforts to provide a federal court.

The promise of early construction of the federal building has convinced all that the present in the logical time to press action for a federal court.

The Age, long an advocate of a federal building and a federal court at Las Vegas, can see no good reason why Las Vegas should longer suffer the trouble and expense of transacting all federal business in a place nearly 500 miles away.

Our Senators and Congressman it may be said with certainty will see that our wishes are given consideration at Washington.

Tenting on the Old Dump Ground

A NEW YORKER AT LARGE

By DEMING SEYMOUR

NEW YORK—There is a bachelor apartment for rent on Park avenue at Fifty-first street.

For four years it was tenanted by Sam Katz, president of the Public Theater chain; Sidney R. Kent, general manager of Paramount-Famous Players-Lasky, and Robert T. Kane, president of Pathe pictures.

Recently, within a few months of each other, Kent and Kane were married to two sisters named White, whose brother is a banker down town. Wedding bells completed the breaking up of the old gang when Katz took as his bride the other day Eleanor Ambrose, widow and former dancing partner of Maurice Moutet.

The apartment that is left vacant was known to friends of the bachelor trinity as "the home of the KKK," a name derived by the joining of their three final initials.

The catch was that Katz is a Jew, Kane a Catholic and Kent a Protestant.

Collar, Bag and Gloves—New

Thin discs of precious wood mounted on gold make up the original collar shown above. It's by Jean Patou. . . . A smart set of gloves and bag for summer wear is offered by Alexandrine. Both gloves and bag are in soft suede in a delicate shade of pinkish mauve and are trimmed with fancy leather in a matching shade.

Henderson Attends Kiwanis Meet on Trip

A. S. Henderson is back in Las Vegas after a trip to California during which he attended the district trustee's convention of the Kiwanis Club at Vallejo, visited relatives and friends for a week and a half, and made the trip to Yosemite.

With Mrs Henderson and their two daughters, Alice Henderson and Mrs Ross Farrow, and the husband and baby of the latter, Senator Henderson drove from Los Angeles to San Francisco and Richmond, where he visited his mother and other relatives.

Mrs Henderson is now in Los Angeles, where she will remain for a week or two more.

In the year 1868 magazine articles "went on at a great rate" over the evil of corn-cob pipe smoking by society girls in the United States, particularly in the South. The puffing sisterhood of this flaming era seems to have overlooked the lure of the corn-cob pipe.—Lafayette Journal and Courier.

Lawrence Tax Cut One-Third

Tax levied against J. T. Lawrence on his Artesian Park Estates was cut one third by the board of county commissioners, sitting as a board of equalization this week, after a vehement protest by the subdivider against the figure of \$157,855 which had been set as his tax total for the tract.

The cut was made on grounds that the water, electricity, sidewalk, park and sewage improvements stipulated as a part of the sales contract for the Artesian Park lots had not been made as yet and therefore the value had not as yet accrued to the extent implied in the levy.

A British newspaper prints a story of a fish that winks. That isn't so unlikely, considering the nifty decorations on the beaches this year.

WASHINGTON LETTER

By RODNEY DUTCHER
NEA Service Writer

WASHINGTON—"Work for the Indians" is the keynote of the program which Secretary of the Interior Ray Lyman Wilbur is working out for the rehabilitation of the 350,000 red men on the government's 200 reservations.

"We want to get them away from the reservations," Wilbur says. "Reservations are the worst kind of places for them and they ought to have a chance to share in American prosperity."

The next session of Congress probably will receive requests from the Indian bureau for authorization and appropriations for an Indian employment agency, which will be the foremost item in plans now under formulation by Wilbur and Indian Commissioner Charles J. Rhoads.

He Hasn't Much Chance
Wilbur and Rhoads are going on the theory that the Indian's lack of opportunity for productive effort is largely responsible for his many troubles. Health conditions on the reservations, which have long been a public scandal, are now traced to under-nourishment brought about by the Indian's inability to feed himself.

Baby death rates and tuberculosis death rates have been four or five times as high among the Indians as among white populations, and trachoma has for years been a racial scourge.

The custom has been to attribute this to the non-resistance of the aborigines to white men's diseases. Congressional committees have gone to the reservations to investigate, seen the terrible conditions for
