RANCH FOR SALE--440 acres level sandy loam proven

productive land. 100 acres in alfalfa and sweet

clover, balance in natural grass. Ranch is fenced and cross fenced

completely, all hog-tight. On ranch there are nine flowing artesian wells, flowing into three large reservoirs.

On account of its close proximity to Las Vegas, this ranch is ideally adapted for a dairy ranch, has oceans of water, can raise all your own feed, plenty of natural grass, timber trees and shade.

The U. P. R. R. survey runs through a corner of this ranch leading on the main line from Bracken to the BOULDER DAM, and as the ranch lies only eight miles south of Las Vegas, between the Los Angeles highway and the road to Boulder Dam, it could be cut up into five-acre tracts and sold to families who will want just such a place to make a nome.

Priced very low if taken before actual construction of Boulder Dam begins.
