Doctor Says--

"Your care for your health prompts you to seek the skilled advice and expert medical attention of a reputable physician. You can afford to be no less careful in selecting your druggist."

The doctor prescribes. We follow his formula, but both he and his patient must depend upon our skill and knowledge if proper results are to be obtained.

Quality Plus Accuracy

is our watchword. You can accept, on our word of honor, the assurance that these two important elements are included in every prescription we fill. In addition nothing but the purest drugs are used. If you value these things and wish the added service of promptness, bring your prescriptions to us.
