THIS IS A MESSAGE TO THE OWNERS OF REAL ESTATE IN LAS VEGAS AND IN CLARK COUNTY, PRESENT AND PROSPECTIVE; AND TO THOSE WHO LEND MONEY ON THE SECURITY OF CLARK COUNTY REAL ESTATE.

Until recently, the only means you have had to make sure of the title to the land you were buying, or lending upon, has been an abstract of title. The abstract of title has served American land owners long and well. It must continue to be used wherever a better method of evidencing and proving land titles cannot be provided.

When an abstract is completed preliminary to a transaction, it is submitted to an attorney selected by the purchaser or lender for examination. The attorney gives to his client his opinion as to the condition of the title. Often different attorneys give differing opinions about the same title. This is merely human fallibility.

I do not say that abstracts of title, when prepared by skilled and reliable abstractors, who have complete and up-to-date title records, accompanied by the opinion of a specialist in real property law, are not good as far as they go. But they do not go far enough, and there is a divided responsibility and a limited liability on the part of the ab-

The modern method of TITLE INSURANCE gives you a complete protection for your real estate investments. A title insurance policy is issued by the Pioneer Title Insurance and Trust Company only after an abstract of title has been prepared from its own complete office records and the public records, and after the condition of the title has been determined by the commany's own attorneys in connection with the advice of eminent local counsel. Then a title insurance policy as lasted in the full amount of the purchase price of the land, including the value of contemplated improvements if desired. Lenders are insured for the amount

of any loss, whatever the sum, growing out of any title defect or lien insured against.

Title insurance is a class of insurance recognized by the State of Nevada along with fire insurance, life insurance, etc. Special laws make requirements of title insurance companies concerning their capital, surplus, guarantee funds, and supervision by state officials. The purpose of these laws is to make sure of the financial responsibility of title insurance companies.

Pioneer Title Insurance and Trust Company has financial resources for beyond the legal requirements. The Company will settle promptly and without quibbling any loss suffered by any of its policy-holders for which the Company is responsible. There is no divided responsibility and liability. One strong institution, State authorized and State supervised, insures your title.

We know, from many years' experience, that policies of title insurance, issued by a company having a complete title plant, with skilled title examiners and counselled by legal specialists, and having a strong and growing financial structure, can serve and protect owners of real estate and leaders on real estate security better than abstracts of till
