LeBrix Plans To Outshine Coste By Flight To Brazil

MARSEILLES, France, Jan. 28. (A)-Lieut, Joseph LeBrix, who once attempted a round-the-world flight with Dieudonne Ceste, plans two flights with which he hopes to wre. aviation honors from his former friend. The two men have been estranged for some time.

LeBrix now is putting the finishing touches on a monoplane powered with a single 650-horsepower motor. He hopes soon to attempt a new French and world's record for distance and duration over a closed circuit. Marcel Doret, champion acrobat, will accompany him. If successful in this attempt, Le-

Brix says he will try a non-stop flight from Marseilles to Rio de Janeiro, and as far beyond as his gasoline will carry him. This flight, he believes, would eclipse the record which Coste established by flying from Paris to

New York. LeBrix's new plane, which calls the "Trait - d'Union" ("The Hyphen") has a cruising radius of more than 6,000 miles. With its
