

MEXICANS DISPLACING FILIPINOS

California Mexicans Take Jobs of 500 Filipino Strikers

SAN LUIS OBISPO, Feb. 18. (AP)—Authorities were apprehensively watching 500 striking Filipinos today as Mexicans imported from northern California took up residence at San Luis Obispo county field hands.

The Filipinos went on strike in the San Luis Obispo, Pismo Beach and Arroyo Grande pea fields last week and conferences between Filipino leaders and Japanese growers failed to result in a compromise.

Truckloads of Mexicans are being introduced into the county by the growers to harvest crops. Although no outbreaks have been reported, four Filipinos have been arrested and fined for carrying concealed weapons.

A general exodus of Filipinos from the district has been predicted by officers of the Filipino Protective Association.

Rescue Squads Attempting To Save Five Men

SCRANTON, Pa., Feb. 18. (AP)—Rescue squads dug through debris in the gangway of the Steeko section of the Pomeroy mine at Carbondale today, in an attempt to rescue five miners believed trapped under a fall.

Reports of the fall said that the roof of the Steeko section caved in over a mile long stretch, trapping the five men working there.

Little hope was held that they would be found alive unless they had escaped through another opening and had failed to report after the fall.

Bogus Innkeeper Jailed As Forger

HOLLYWOOD, Feb. 18. (AP)—Michael Walter Blain, 35, who allegedly fled numerous Hollywood merchants while posing as manager of hotels in El Centro and Santa Barbara, today was lodged in jail here charged with six counts of forgery.

Authorities were attempting to add to the counts against Blain by urging that all merchants who had accepted the man's checks to report their losses at once.

According to police, Blain operated under various aliases and bought women's clothing exclusively. Much of the apparel was expected to be recovered. Police were unable to state what disposal Blain made of the garments.

MARSHALL DEFEATS FRENCHMAN

LOS ANGELES, Feb. 18. (AP)—Everett Marshall, Colorado heavyweight, defeated Henri DeGlane in two straight falls here tonight for the right to meet Don George, present claimant to the wrestling title.

DeGlane tested Marshall from the ring just before the first fall. Marshall retaliated by pushing DeGlane through the ropes and then used his reverse headlock with effect, taking both falls with his airplane spin.

Sophomores Win Interclass Title

The sophomore class hoop squad of Las Vegas high school last night defeated the senior five by a score of 8 to 5, to win the class championship in the playoff of the interclass tournament.

MRS. ANDERSON ILL.—Mrs. Harry Anderson is suffering from a severe attack of influenza. Mrs. Anderson is confined in the Las Vegas hospital. Dr. Mildren, attending physician, stated last night that Mrs. Anderson was somewhat improved.

UNDER QUARANTINE.—Vernon Harrington, son of Mr. and Mrs. A. H. Harrington, is confined at his home on Second street suffering from scarlet fever. Dr. Mildren, attending physician, stated last night that Harrington's condition was very satisfactory. The Harrington home has been quarantined.

The 25 farmers' mutual exchanges now operating in North Carolina had a combined business of more than \$1,500,000 in 1930.

T. statue honoring St. John Eudes, founder of the Order of Jesus and Mary, soon is to be erected in St. Peter's basilica in the Vatican City.

Exportations of American-made goods through Laredo, Tex., into Mexico during November were valued at more than \$2,000,000.

A rare specimen of silver in the form of a 260-pound mass has been sent to the Smithsonian Institution from Ontario.

Former Heavyweight Champ Thinks Carnera Best Bet of Modern Crop

MARVIN HART

FERN CREEK, Ky., Feb. 18. (AP)—Over here in Kentucky a former heavyweight prize fighter rates Primo Carnera as the best on the horizon.

Marvin Hart, who won the title July 3, 1905, from Jack Root and lost it February 23, 1906, to Tommy Burns in Los Angeles, sits at his bedside, farside here watching the prize fight world and launches the fact that he was born "20 years too soon."

"If I had been born 20 years later," he smiles, quite certain the joke's on him, "I could have made a million. As it was, my fights were not much more than ham and eggs."

There is nothing bitter in his reflections. He estimates that the title netted him about \$10,000. He is practically an invalid now, due to high blood pressure, and they're talking about a benefit show for him in Louisville.

For more than 20 years Hart has been the state's principal boxing referee.

"These boys don't come up to grade," Hart says of the 1931 crop of heavies. "They fight for points, just for a decision. They don't go in for the slugging they did in the old days—too dangerous, I guess."

Yucca Grove District Hums With Activity

By A. G. JOHANSEN (Special to The Age)

Here is some news about the new gold strike at Yucca Grove, Calif., 32 miles from the state line, as seen by one of the subscribers of The Age.

This section is beginning to hum with activity since gold was discovered by the Brown Bros. of Salina, Utah. Claims have been staked out for more than four miles around.

Many prominent mining men are now on the ground for their respective companies. A few who have arrived during the past three days are Messrs. Wheeler and Eardley of the U. S. Smelting Co., Clark of the American Smelting Co., Ingersoll of the International Lead Co., Snyder of the International; Paulson of Elv, Nev.; Messrs. Schrader and Painter of Reno; McCoy of Las Vegas; and Thomas of Salt Lake City.

Wheeler and Eardley have taken over numerous claims on which they expect to start operations within a few days.

Mr. Burns and Mr. Paulson are holders of many claims. A. J. Nickerson and C. Cywin of Yucca Grove auto camp are amongst the largest and most valuable claim holders.

It is reported that assays run well over \$3,400. Several holes about 18 to 20 feet deep have been dug with assays running well over \$200. Old-time prospectors are coming in every day and all believe a second Goldfield is in the making.

It is reported the owners of Yucca Grove auto camp have sold two claims for \$3,500. The strike was made one-quarter mile from there.

The owners staked out claims on the highway before gold had been discovered so as to keep competition away and now find they have a gold mine.

Have just returned from the strike and it seems like there will soon be a tented city along the highway. Tents and cars can be seen all over the place.

Marriage Licenses

STRATTON—MORRISON: Elmer Stratton, 34, and Laura Louise, 21, both of Las Vegas.

BODLE—HARRIS: John E., 27, and Alma E., 23, both of Garden Grove, Calif.

LOWE—LITSEY: Wm. A., 39, and Goldie, 29, both of Long Beach.

SCHMIDT—OLDS: Gustav, 54, and Alberta, 18, both of Las Vegas.

SOCIETY

Mrs. Jake Beckley was hostess to members of the Wednesday Bridge club and a few guests yesterday afternoon. After luncheon bridge was played, high score being won by Mrs. S. J. Lawson. Those present included Mesdames O. W. Yates, Will Beckley, W. N. Schuyler, O. C. Buggs, E. F. Davison, W. E. Perron, S. J. Lawson and J. T. Walters.

Mrs. C. D. Breeze and Mrs. R. D. Balcem have issued invitations for a bridge luncheon Friday afternoon honoring Mrs. Breeze's daughter, Mrs. Forrest Waddell, who is visiting in Las Vegas.

The Community Bridge club met with Mrs. W. H. Bracken Tuesday. After luncheon several rounds of bridge were enjoyed with Mrs. C. P. Squires and Mrs. C. E. Pembroke holding the high scores. Besides the hostesses covers were laid for Mesdames W. E. Ferron, R. W. Martin, J. H. Liebfoot, Will Beckley, W. N. Schuyler, C. P. Squires and C. E. Pembroke.

The Mesquite club will hold its regular meeting at the home of Mrs. F. C. DeVinney tomorrow afternoon at 2:30. Mrs. DeVinney resides at Sixth and Brigrider streets.

Mrs. S. J. Lawson was hostess to members of her bridge club on Tuesday afternoon, entertaining with a luncheon. Contract bridge was enjoyed for several hours following the luncheon, prizes for high score being won by Mrs. A. E. Cahlan and Mrs. R. B. Griffith. Others present were Mesdames Frank Gusewille, John F. Cahlan, G. R. Van Eaton, Murray, F. M. Ferguson and E. W. Gragin.

The American Legion Auxiliary enjoyed one of its regular card parties Monday evening, at which Mrs. Edith Pennington and Mrs. George E. Marshall were hostesses. Following the games delicious refreshments were served. Prizes for high and low scores were won by Mrs. Sam J. Shaw and Mrs. J. D. Smith.

The Misses Hartman were hostesses Saturday evening at a community supper, at which guests included eighteen neighbors. After supper the evening was devoted to bridge, prizes being won by Mrs. Brashear and Mr. Sledge.

Suits Filed In District Court

1,400 Future 'Bachelors of Flying' Train for Aviation in U. S. Colleges

Virtually 3,000 students in colleges throughout the United States are taking aviation courses. The laboratory at North Carolina State college is shown above, and students of aerodynamics at the University of Minnesota are shown below inspecting a plane.

NEW YORK, Feb. 18. (AP)—American colleges have become increasingly air-minded this year, and vast more students, more teachers and more courses in aviation. A thousand more students than last year are studying aviation in college, an increase of one-third. They total 3,500, as against 2,400 in 1929-30.

More than a third of the students, or 1,419, are taking four-year courses that will lead to special bachelors' or masters' degrees in aviation.

The figures were gathered by the Aeronautical Chamber of Commerce for the Aircraft Year Book for 1931.

New Colleges Enlisted. Not only are more colleges adding aviation, but more colleges are offering courses in it. A survey by the Aeronautical Chamber's survey revealed. Seventy-four colleges now have courses of some sort in aviation, as against 51 last year.

The numbers of students seeking aviation training are so much greater than the industry can absorb that many colleges are trying to keep students in aviation courses to a minimum. The survey also brought out:

Graduate Work, Too. Students now may take graduate work in aviation, just as in medicine, law or engineering, at 14 colleges in widely separated sections of the country. These colleges offer full four-year courses, leading to degrees of bachelor of science in aeronautical engineering or aerodynamics and graduate courses leading to degrees of master of science in aeronautical engineering or doctor of philosophy.

The number of aviation instructors in colleges also is growing. Last year there were 190 college teachers of aviation, of whom 40 were on a full-time basis. Today 273 instructors are at work. 63 of them on full time. Massachusetts Institute of Technology, with 12 full-time instructors, has the largest aviation faculty.

More than a dozen colleges have ground schools to prepare students for real air training at commercial flying schools.

Aviation instruction also is growing rapidly in the public schools, the chamber learned. So many public schools now offer training for aviation mechanics that more and more students are learning the trade there, instead of in private commercial schools.

There are 500 elementary, secondary, trade and continuation schools providing aeronautical work of some kind.

Crescent Mines Promise New Interest Soon

New interest is becoming manifest in the Crescent Mining district, situated between Searchlight and Nipton, Calif., about five miles from the latter place.

While Crescent was famous in early days for its valuable turquoise deposits, which continue to be some of the richest of the few turquoise mines found in the United States, the new activity centers around gold production.

Dr. H. M. Benson, pioneer, has opened up the old Elsinore property and has already installed a compressor and hoist. Assays from this property have run up to \$200 a ton in gold. Three assays made last week ran from \$38 to \$165. Benson has been interested in Crescent for the past 25 years, and has never given up the hope and conviction that there was a rich district there.

P. H. Lloyd is developing his property, the "Rose L.", which is making an encouraging showing.

Cameron and associates are hard at work on development as the "Star."

Harry L. Trehaume of Nipton owns one of the best known and most valuable of the turquoise deposits.

At Searchlight, activity continues on the increase. The Duplex is working 40 men, a nine months' contract has been given to one man for trucking supplies, including oil, pipe, etc., from Nipton.

Airplane Line Soon To Cross Africa's Heart

PARIS, Feb. 18. (AP)—France is looking forward to the early inauguration of two great new air lines, rivaling in importance the Indo-China line which was opened in January.

First in importance in the French mind is the London-Marseilles night mail line.

Second comes the trans-Africa line, bringing the farthest corners of the "dark continent" a few weeks closer to Europe.

Like the far east air line, the trans-Africa line will be international. So far it is purely Belgian-French in make-up, but both the British and Dutch are interested in their own accounts. The line would cross British Nisaria, the Ivory Coast, Dahomey and the Portuguese possessions of Angola and Mozambique, and shorten the journey to South Africa.

France, Britain, Holland and Germany will use the new far east mail line and there is no doubt of its success, according to Emmanuel Chaminet, French director of merchant aviation. France, Britain and Holland overcome many international difficulties finally to cooperate in its operation.

The Indo-China line, however, is operated by the French Air Union from Marseilles to Saigon. Seaplanes are used from Eaux de Beurre to Beirut, motor cars from Beirut to Damascus and airplanes from Damascus to Bamoon by way of Basora, Diak, Karachi, Alinabad, Calcutta. Seaplanes are then used from Bamoon via Victoria Point to Saigon, Indo-China.

The Dutch K. L. M. Amsterdam-Batavia line has arranged to run all emirate weeks with the French line of the Marseilles-Saigon service.

Ducks marked with bands in Kansas by the biological survey have been found in 19 states, four Canadian provinces, Alaska, and Mexico.

Tilden Defeats Karel Kozleuh

NEW YORK, Feb. 18. (AP)—One of the most ancient tennis arguments was brought to an end, temporarily at least, tonight when Wm. T. Tilden II, of Philadelphia, former dominant figure of the amateur game, bested Karel Kozleuh of Czechoslovakia, a leading exponent of the professional side.

The scores in the first of the series of matches to determine the "world indoor professional championship" were 6-4, 6-2, 6-4.

For years tennis experts have discussed the merits of Tilden's play along with that of Kozleuh and tonight Tilden showed himself superior to Europe's top flight professional just as he had been the master of the amateur ranks for a decade.

This was Tilden's first metropolitan appearance since he turned professional.
