#### **CHEAP POWER TO DEVELOP NEW NEVADA INDUSTRIES**

Nye Wilson, Secretary of Chamber of Commerce, Tells of Varied Enterprises Which Will Be Attracted to Las Vegas

Nye Wilson, secretary of the Las Vegas Chamber of Commerce, last Nevada Plans night gave another of the series of community discussions he has been

station KGIX. The talk is full of subjects to timulate thought and we commend to our readers.

It is part of my job, as secreary of the Las Vegas Chamber of Commerce, to ferret out and make known possible industries for Las Vegas. Naturally I am a little more optimistic than some of my listeners. However, I have not talked to a single person who has not agreed that Las Vegas has wonderful industrial possibilities.

Electro-chemical plants, great refineries, glass factories, and other ndustries are expected to come here Proves Success in the near future. Let's lay aside such plants for the time and consuch plants for the time and consider other industries which may come here-industries which would give us large payrolls and much tax- lature for consideration that would able wealth.

Our greatest industrial attraction labors will, of course, be the cheap power o be generated at Boulder dam. Wemust keep in mind during this discussion that this power will be the cheapest in the world.

It is logical to expect Las Vegas if a valuable discovery be made. o become the textile center of the and a prospect developed or sold. west. #### **CITY PARK IS TAKING SHAPE**

Well Down 500 Feet-Trees Going In, **Drives Marked** 

The city park of thirty acres, is appearance these days.

The drives and streets through the park have been laid out in graceful lines and curves and have been graded sufficiently so that the arrangement is apparent. More than three hundred trees,

Arizona ash and Chinese elm. have been planted and are about ready to burs: into leaf.

and is flowing a small amount of warden William Delbridge. water. It is the intention to go another 100 feet if necessary to get a flow sufficient for park purposes. But the plans are still not entirely carried out. It was the hope of the Realty board and the committee in cooperation with Mayor Hesse to have 430 trees planted this year. The most important avenues The escapes were made up a pier and walks should be lined with trees of steel the convicts had hooked to year. The most important avenues this year so that the beautiful plan the top of a twenty foor wall would be carried out in symmetrical form.

However, it is necessary to secur denoations sufficient to plant 100 trees more in order to do what should be done this year. Many individuals have contribut-

ed one or several trees, and some of the lodges and civic organizations Mrs. Valarie Armsby - Barbara have taken blocks of them. It he intention to designate the trees in accordance with the organizations or individuals who donate them. This will form a memorial which, in future generations, will serve to perpetuate our memories. Nothing is more noble than a fine In this desert environment a tree is thrice beautiful.

The Age appeals again to the Edward W. Bok in 1921 public to join in the movement and make sure that the 430 trees planwe will have another year to wait.
