The address follows: NEVADA

By MAUDE FRAZIER One of the outstanding things about Nevada is its size. It is the gixth state in the union in point of size and that does not sound like so much. But out here in the west everything is on such a magnificent scale that we lose our sense of proportion. Nevada is about the size of Italy, or the combined area of the Philippine islands. It is more than twice as large as England, and we think of England as quite a

Clark county is about the size of

fewer people than any other state.

It has not now and never has had chough people to really any the development is peer Fellon. enough people to really entitle to statehood. But in 1864, President Lincoln considered it necesary to have the thirteenth amendment abolishing slavery in the United States or to raise another million soldiers to continue the Civil largely responsible for the government's entire reclamation policy ment's entire reclamation policy one of having the necessary threethe thirteenth amendment and helto save the union. We owe our satehood to Abraham Lincoln, the supreme politician of all time.

The state of Nevada has about the same number of people as El quality and not in numbers.

Belgium has six hundred persons per square mile; Rhode Island has five hundred forty! Nevada seventen hs of a person per square mile. Lincoln county, the most sparsely populated of our counties, has twomembers of St. Agnes Guild Friday tenths of a person per square mile at the rectory. After a short businer or five square miles per person. No ness session, a social hour with de- wender we talk about the great open

reptiles, pottery and other nems thing. It to be 40 below zero in the white-tion last year by Rev. David C. and in Clerk county we know just how ho; it gets in summer though we don't tell the world very much we don't tell the world very much the world we have perpetual snow the same tell the world very much tell the well and add milk and cook until thick, creamy sauce forms. Stir constantly. Add cheese, crumbs, seasonings an degg yolks. Beat two minings an degg yolks. Beat two minings and degg yolks. Beat two minings are degree to the document of the docum every kind of road from the mountain trail to the paved highway. There is every mode of conveyance from the prospector's burro to the aeroplane. We even have two time belts and have been vaccinated for dayligh saying and that is variety

Mix sugar, milk and butter. Boll Mix sugar, milk and butter. Boll Most of the state lies in the Great Basin, an area that is not drained to the sea. In this basin the river poured from spoon into cup of cold are drained into sinks, are used for safer. Set aside 20 minutes. Add irrigation, become underground rivare drained into sinks, are used for

#### **Eckener Inspects Empire State Mast**

ON NEVADA NE WYORK, March 27. (U.P)-Dr. Hugo Eckener, commander of the Graf Zeppelin, inspected the dirible mooring mast alop the new :: State building and left with the remark that the view from the skyscraper was "excellent."

As for attempting to moor an airship to the mast, Eckener said: "I always have been very careful. There would have to be many experiments,"

ver State." in which she briefly the southeast drains into the Colo-

speakers on the subject do not often the aid of irrigation cannot be carried on. Dry farming has been tried hut withou very marked success. The first lands to be irrigated were along the Sierra Nevadas on the to construct ditches so the water could run onto the land by gravity. The whole process was inexpensive. So Earson valley ground Carson City and Truckee Meadows aroun Reno were, set led first.

ranchers began to organize into irrigation districts and to work coopera ively. The first of these was 'n Walker river valley where the people spen; almost a million dollars constructing the Topaz lake key in Europe. Nye county is larg-er than Denmark or Holland or highway between Gardnerville. Nevada, and Bridgeport, California.
