### 'ON TO THE STRATOSPHERE,' AIRMEN'S SLOGAN

August Piccard (upper center) in the sealed balloon gondola shown at upper right. Interior of the gendola is shown below. Reinhold Tiling (upper right) is experimenting with the value of rockets like those at left in stratosphere flight.

# GERMAN ACES **PLAN UPPER** AIR HOPS

By WADE WERNER

BERLIN, June 3. (A)-Exploration frictionless sky-highway of the fuure, is the dream of scientists experimenting in various parts of Germany with rockets, super-altitude airplanes and propulsion motors.

The success of Auguste Piccard.

Swiss physicist, in ascending nearly ten miles in a balloon has fired them to fresh efforts. Some of the Germans are seeking

first of all scientific data on the nature of the earth's outermost layer of atmosphere. Others are aiming at ten-mile-

high rocket planes that would, theoretically, go around the world in

PLAN "MAIL ROCKETS" Still others are interested chiefly

in rockets as a means of shooting plosion, but Heylandt has continued mail from city to city, while those the experiments and lately anwith an eye to military uses are nounced development of 200 h. p. thinking of radio directed rockets with a rocket motor weighing only as a defense against air raids.

### KITCHEN PARTY SOCIETY'S FAD

WASHINGTON (A) - Younger members of capital society turned cut at a "kitchen party" given by Rushmore Patterson, jr., dressed as butlers, cooks and maids. The guests arived about 10 o'clock after dinner parties in other homes, and stayed until early morning hours dancing. The novelty of clothing in such contrast to the usual evening mode added zest.
