

### AIRDOME WILL OPEN TONIGHT

Announcing Olsen and Johnson in "Sailor Behave," hailed as a laugh sensation, the Airdome theatre will tonight "go on the screen" with their first talking picture. And on top of this entertainment, the management will also present Will Cowan and his girls in a bright and breezy musical revue.

Short sound screen subjects will also be shown with the feature picture and the Bob Orton Blue Heaven Boys and Buddy Clark's Comedians will appear with the revue show.

Sixteen performers will appear in the big program. In a message to the theater-going public, the Airdome management states that it will be the chief concern of the theater to present high-class first-run talking pictures, and strictly moral and entertaining musical revues.

Las Vegas is the brightest business spot in the United States.  
This column is the brightest business spot in Las Vegas.  
As the Pioneer Realtor, we made barrels of money for our customers and neighbors. This was the lean years.  
Now a lot of newcomers are here. We will make barrels of money for them NOW and in the far years ahead. It's a simple matter of buying right, and selling right. One of the rules is: Buy from a Pessimist, and sell to a level-headed Optimist.  
A Pessimist is a misfit in Las Vegas, but just the same we have a few of these wise guys. It's an awful shock to them to think of Las Vegas having Fifty Thousand population within the next six or seven years because of cheap Boulder Dam power applied to the mineral resources of California, Arizona and Nevada within two hundred and fifty miles in all directions from Las Vegas, and which will be shipped to Las Vegas for treatment in her Smelters and Refineries. The latter will produce the raw material which will make Las Vegas the manufacturing center for hundreds of metallic articles now shipped to the Pacific Coast from Eastern refinery centers.  
Here are a few for sale listings which will give the Pessimist curvature of the spine, and which will fatten the bank account of said Optimist.  
\$29,000 for a 50 ft. corner in the down town district of the Broadway of Las Vegas and Southern Nevada. \$10,000 cash and the balance at \$4,000 per year for five years until paid out. Before that time this property will be worth at least \$1,000 per front foot.  
\$40,000 for a 75 ft. corner in the same district. \$25,000 cash, balance in one year. Another \$1,000 a front foot corner.  
\$13,750 for a 275 foot frontage on South Fifth street. One of the coming business sections of Las Vegas. An ideal hotel location on the Los Angeles Highway near the down town district of Las Vegas. Easy terms.  
\$ 7,500 terms or \$7,000 cash for one of the best 100 by 140 corners down town, and near the Fifth Street highway. An ideal location for hotel or high class down town apartments.  
\$10,000 for 100 ft. front on South Fifth street in business district. \$5,000 cash and balance to arrange. An emergency sale. Worth more like \$12,000 to \$13,000.  
\$ 2,500 15 scattered lots. Each 50 by 130 ft. In city. Worth \$400 each or \$6,000. The Pessimist would need the coroner if he were shown these lots.  
\$ 1,500 5 lots each 50 by 130 ft. Two corners. City water. Close in. Cheapstuff, but one of the best buys in Las Vegas. \$500 cash and easy terms.
