MARKETS AT A GLANCE

By RICHARD L. GRIDLEY
United Press Financial Writer

NEW YORK, Jan. 6. (U.P.)—Sentiment in Wall street improved further today as stocks made their first recovery of the new year. Bonds which have been under heavy selling; recently, recovered, cotton and grains were buoyant.

The recovery in stocks caught the short interests unawares, and heavy buying from this source served to stimulate the advance. The trend was interrupted often by profit-taking, but the close found most of the leaders at their best levels in more than a week.

The advance reflected the attitude themselves, who, after a months decline, considered the time ripe to buy, at least for a technical comeback.
With recovery started, bull rumors were heard. Belief increased that the \$2,000,000,000 federal reconstruction finance corporation would be approved by congress, which, it was thought, would serve to strengthen prices.

Late in the day unfounded reports appeared intimating that Germany and France were agreeing on plans to reduce reparations payments and that American bankers had agreed to extend Germany's frozen short term debts for a period of three years. German bonds soared on these reports.

These influences worried traders with large short contracts outstanding. Some of the larger bears, however, refused to become alarmed, preferring to find out whether the current rally was merely a "flash in the pan."

Nevertheless, bullish sentiment was on the ascendancy and many brokerage houses were hopeful that the break in the gloom would pave the way for the usual late winter rally.
Best gains in stocks today were made by issues suffering the largest declines in recent sessions, indicating that much of the buying represented heavy short covering. Auburn Auto again performed spectacularly, opening 8 1/2 points higher at 128 and later extending its advance to above 132. Similar, though less emphatic advances occurred in other leaders.

Practically every group participated in the advance, even the coppers moving ahead late in the session on indications that another advance would be made soon in the price of the metal. Oils were helped by another sweeping decline in crude oil production that testified to the success with which the industry has put into effect its Sunday shut-down orders.

KANSAS CITY LIVESTOCK

KANSAS CITY, Mo., Jan. 6. (U.P.)—Reduced supplies to the Kansas City livestock market today sent hog and sheep prices 15 cents higher. The cattle market was unchanged, with steers and yearlings selling from \$4.50 to \$7.50.
Top fat hogs were up to \$12.00 and the bulk of sales ranged from \$3.85 to \$4.20. Best lambs brought \$6.10.

BLAMES STATE FOR BOND LOSSES

WASHINGTON, Jan. 6. (U.P.)—Moral responsibility for heavy losses of American investors on defaulted South American bonds was placed on the State department today by Senator Carter Glass of Virginia, former secretary of the treasury. He denounced the State department's policy of passing upon the desirability of foreign loans floated in this country.

Though the approval purported to be as to the political desirability only, not the intrinsic worth, Glass said that the department acted without authority in law and without proper knowledge.
"They (the department) are morally responsible for every one of these loans," Glass said, "for the \$815,000,000 of defaulted South American bonds and for the outstanding indebtedness that will not be paid—probably \$5,000,000,000."

The Virginia senator's bitter statement followed testimony before the senate finance committee, investigating the foreign loan situation, that the State department overrode objections by the department of Commerce to one South American loan, which is in default.

Governor M. Jones, chief of the finance and investment division of the department of Commerce, was the witness. He said that in 1928 the department felt many Latin American nations were "over-borrowed."
