ONE PER CENT INCOME TAX IS OFFERED BY HULL HOUSE HEAD

(Copyright, 1932, United Press) BALTIMORE, Md., Jan. 7. (U.P.)—Miss Jane Addams, Nobel prize winner and internationally famed welfare worker, today proposed a federal income tax of one per cent to support the nation's unemployed.

In her first statement for publication since her recovery from a major operation at Johns Hopkins hospital a month ago, Miss Addams discussed means of combatting the results of economic depression and the destruction of the world's morale.

"The United States," she said, "should support its unemployed by national taxation. I would suggest a one per cent tax on incomes of \$1,000 and over as a means of creating this support, with surtaxes starting at even lower figures than at present.

Miss Addams advanced several reasons for adopting the tax as a federal measure.

First, she pointed out, there is no question about the constitutionality of such a tax, whereas many states have provisions forbidding it.

Second, the federal income tax machinery is already set up and operating efficiently. The overhead cost of collection will be little more than at present.

Third, the system would place the burden equitably upon all citizens, as against systems that put undue burdens on real estate—as in De-

threat of severe punishment. "We cannot tolerate open or secret help for those beyond the law."

Sir Frederick Sykes, governor of Bombay, declared in a message to the people, "Law-abiding citizens have nothing to fear from the new ordinances, which will protect people in pursuit of lawful activities.

Sir Frederick, who cancelled a scheduled tour of the Sind because of the developments in Bombay, declared that the government would use its special powers to the limit in combatting the attempts of the national congress to interfere with the government.

With the Mahatma Gandhi, leading power of the nationalists, and his chief lieutenants in prison, the government has continued to hold the upper hand in the "warfare" which so far has centered in Bombay and other western regions.

Nationalist funds totaling some \$50,000 rupees, or about \$15,000, were seized from Bombay banks and the arrests of congress officials and volunteers, including many women, continued. The first efforts of the nationalists, chiefly women, to picket Bombay shops selling British goods, were unsuccessful when police arrested or dispersed the pickets.

BLOW IS DEALT NATIONALISTS

BOMBAY, India, Jan. 7. (U.P.)—The government dealt another blow to the Indian independence movement today by outlawing the entire national congress organization and warning the people to refrain from civil disobedience on

MARKETS AT A GLANCE

By RICHARD L. GRIDLEY (United Press Financial Writer)

NEW YORK, Jan. 7. (U.P.)—Recovery in stocks continued today but prices lowered slightly from their high when a fair volume of profit-taking began, attracted by the recent sweeping advance in the market.

Closing levels in most instances were above previous closing levels and shorts continued in a nervous mood as the final gong rang. Bonds, which have shared in the improved financial sentiment, recovered further, while commodity markets like cotton and grains held steady.

Approximately 2,200,000 shares changed hands on the stock market, against 1,800,000 shares yesterday. Prices, despite their late sell-off, displayed considerable buoyancy and traders were encouraged by the first sustained recovery since early November. Speculative sentiment continued cheerful.

Hope that railroad unions would accede to the railroads' request for a voluntary 10 per cent wage reduction by January 15 was translated in active buying of the railroad shares; rumors that the United States Steel Corp.'s December unfilled orders would show an increase in the statement due Saturday sent steel stocks forward, while the pending reconstruction finance proposal with its inflationary tendency aided the entire market.

Leaders like Steel common, General Motors, American Can, Westinghouse Electric and Allied Chemical all reached their best levels on the recovery from the December 17 lows but gains were generally limited to a few points.

While much of today's strength was accounted for by belated short covering by bears who missed their market yesterday, considerable absorption of securities, particularly foreign bonds, was reported from houses with overseas connections. The advance in the blue-chip stocks today overshadowed all other speculative movements. With formation of the reconstruction finance corp., which will give aid to railroads, rapidly moving toward a conclusion, rail issues advanced spiritedly under the leadership of New York Central and Atchison.

Less favorable market action was apparent in the copper group. However, announcement was made after the close that leaders of the world copper industry had agreed, after an exchange of cables, upon the principles under which their world selling organization, Copper Exporters, Inc., would work.

COPPER RULES AGREED UPON

NEW YORK, Jan. 7. (U.P.)—Copper exporting companies have agreed to the principles under which Copper Exporters, Inc., the association through which all their foreign sales are handled, will operate in the future.

Directors of the association approved the principles after cable exchanges with European members, and have called a meeting of all members and proposed members to be held Friday afternoon, to vote upon the rules as accepted by the directors.
