

BREAD ENOUGH FOR PATH AROUND GLOBE POSSIBLE FROM WHEAT SOUGHT FOR IDLE

By FRANK L. WELLER (Associated Press Farm Editor) WASHINGTON, Jan. 25. (AP)—Placed end to end the one-pound loaves of bread that could be baked from the 40,000,000 bushels of farm board wheat congress has been asked to donate to the unemployed would tower 350,000 miles or could be wound around the world 13.6 times.

FILLING A NATION'S BREAD BASKET

LOAVES FROM 40,000,000 BUSHELS WOULD GO 13 1/2 TIMES AROUND THE WORLD

CIRCLES EARTH MANY TIMES
An average length of nine inches would give the 2,400,000,000 end-to-end loaves a total length of 1,800,000,000 feet, slightly more than 13 1/2 times the 132,000,000-foot circumference of the globe.

On recent quotations of 53 cents a bushel for the best grades of hard winter wheat the 40,000,000 bushels would be worth \$21,200,000. The read, if sold at 8 cents a loaf, would be worth \$192,000,000.

The magnitude of the proposed transaction is attested by the estimate that 40,000,000 bushels of wheat is all that the country's flour mills grind in a month.

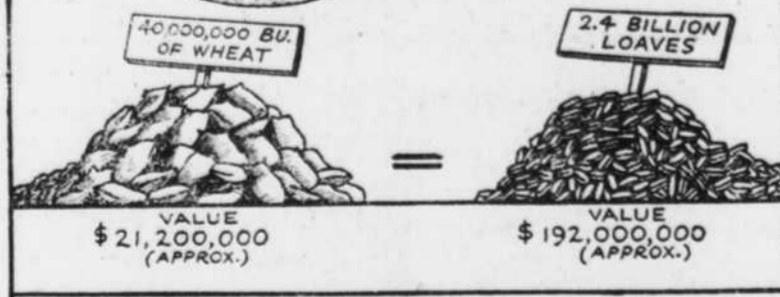

\$3,000,000 COST AVOIDED
John Barton Payne, chairman of the American Red Cross, which it is proposed, would look after the grinding and distribution of the wheat, says it would cost his organization \$3,000,000 if it had to pay for the services.

The chairman, however, plans to pay for the grinding by trading the millers enough of the by-products of the wheat—bran, shorts and middlings—to pay for their work. He expects to avoid baking costs by allowing bakers to trade bread for flour.

To guarantee minimum loss the wheat would be milled at the points it is stored. Flour would be dispatched to the towns in the amounts requested by charitable organizations and at their expense.

BAKERS WOULD COMPETE
Competitive bidding would be opened to bakers in those places, the contract to be to the one offering the most bread for a barrel of flour.

In the absence of precedent for such a tremendous barrier, none knows how the milling and busing

FLOUR WOULD EQUAL REGULAR MONTHLY OUTPUT OF ALL MILLS IN THE UNITED STATES

If congress donates the 40,000,000 bushels of farm board wheat to aid the unemployed, 2,400,000,000 loaves of bread could be supplied to relieve distress—enough to circle the world nearly 14 times and to keep the country's mills busy for a month. The plan would eliminate cash outlays for milling and baking, the fees for such services to be paid in wheat or flour.

charitable organizations as bread or flour. However, it takes 255 pounds of wheat to make a 196-pound barrel of flour. That would indicate sufficient weight of by-products to remunerate millers.

In other words, it may be possible to trade a barrel of flour for its weight in bread.

castle and toss rocks on the roof. We'd rush out but there wasn't no one anywhere around. Just the minute we'd go back inside, 'C-r-a-s-h!' There'd be another cobbler come tearing down on that imported tile. Well, sir, I tell you, mebbe the Valley gets you sooner or later—anyhow I got nervous and closed her up tight; battened down all th' hatches and here I am. Know what I mean?"

"Now the shack's closed, I'm ready for that European trip. Am gonna leave on the Europa or Bremen about last of February. Gotta date in Paris on March first anyhow," and Scotty fished a ragged cablegram from his pocket to substantiate his "date."

"I'm either going to break that bank at Monte Carlo, or not come back," he declared emphatically, his famous red tie jingling up and down like a danger signal. "I'll bust her plenty; know what I mean?"

"Got plenty of money?—Nope, not on me," and he fished into his cablegram pocket and pulled forth a dog-eared, one dollar bill. "This ain't it—got it out in the valley though, and I'll have plenty when I pull stakes."

"I'm going alone, yes sir. Can't be bothered with company; gotta figure out a surefire system. Then there's a lotta calls to be made, too. Haven't been across since I toured Germany and France with Buffalo Bill's show in 1902. Made a lotta friends there. Well, gotta be getting back. Adios." And the monarch of Death Valley, under the twinkle of Stetson, was on his way again.

CASE VICTIM OF COAST VICTIM OF GANG FREE

A real old time charivari for Fire Chief Harold Case and his bride, Elma Robinson Case, was staged last night by members of the local fire department, riding on a fire truck and beating on anything and everything available to make noise. Case was led by a rope behind the truck and followed by scores of tooting automobiles.

The couple were married Saturday in Alamo, at the home of the bride's parents. They will make their home in this city.

MONTEREY, Calif., Jan. 25. (AP)—Mrs. Mary Hansen, 62, kidnaped in Salinas Sunday, was freed by her abductors here tonight. She was in good health and uninjured when found. The kidnapers lost nerve and notified the sheriff's office at Salinas that the woman would be found at a certain address here. Authorities rushed to the house and were greeted by Mrs. Hansen.
