ANTIDOTE MAY BLOCK POISON

OMAHA, Neb., Jan. 28 (U.P.)—Large doses of potassium iodine might temporarily save the lives of California Mexicans stricken with thallium poisoning, Dr. J. C. Munch, department of agriculture toxologist, said today in an interview with the United Press.

Dr. Munch arrived here at 4:30 p. m., and immediately boarded a westbound transcontinental airplane for the west coast where he will supervise the fight to save the lives of the poison victims.

"It is my opinion that the chief battle now is to attempt to save the reproductive glands of the victims," the toxologist said.

"Even if the victims survive, I fear their endocrine glands, especially the reproductive ones, will be destroyed by the thallium."

The Mexicans became stricken after eating wheat, poisoned to eradicate rodents.

MARKETS AT A GLANCE

By RICHARD L. GRIDLEY
United Press Financial Writer

NEW YORK, Jan. 28. (U.P.)—The stocks slipped lower today but were able to recover moderately near the close on reports that an agreement between railroads and their workers on a 10 per cent wage reduction was imminent.

The Bethlehem Steel corporation dividend meeting scheduled for after the close of the market was a speculative deterrent, especially in view of the adverse steel corporation news made public after the close of the market Tuesday.

Bethlehem directors omitted the common dividends and made public the 1931 earning statement showing a profit of only 12 cents a share of the common stock, thus confirming Wall street's fears. Bethlehem stocks foreshadowed the news during the day, the common selling at a new low at 16 and the preferred losing 5 points.

Other speculative movements were few and most of the leaders merely drifted lower. General Electric was an exception, breaking to a further new low for the present shares below the 20 level on estimates of first half earnings of only 60 cents a share, against 75 cents a share in the corresponding period of last year. The street continued to fear early dividend cutting by this leader.

American Telephone continued heavy and most other sections of the utility list were weak, notwithstanding the quick oversubscription of the $25,000,000 New York Edison Co. 5 per cent bonds at an interest rate of only 5.25 per cent. This was the largest public utility financing since June and aroused hopes of a revival in the public utility financing field, which has been held off because of adverse market conditions.

Japanese obligations and loans of various Japanese municipalities and corporations were weak, breaking one to five points on the heels of another decline in the price of the Japanese yen to the lowest level since the country abandoned the gold standard in December. Further gold shipments from Tokio were reported, possibly to be used for the purchase of war materials.

The light turnover in the market as a whole indicated the continued lethargy in speculative quarters and few brokerage houses in their advices to clients saw much prospect for a sustained movement in either direction in the near future. Turnover today amounted to approximately 1,100,000 shares, against 1,300,000 shares in the preceding session.

The weekly brokerage loan statement made public after the close of the market again stressed the wholesale deflation that has taken place in security loans. This week's figure of $513,000,000 showed a loss of $18,000,000, the twenty-first consecutive, and brought the decline from the bull market high of $6,800,000,000 to approximately 92½ per cent.

Losses at the close in most instances were limited to fractions.

KILLER CAUGHT

DETROIT, Jan. 28. (U.P.)—Jack Martin, who escaped two weeks ago for the sixth time from the Milledgeville, Ga., prison, where he was serving a life sentence for murder, was recaptured tonight by police.
