

VEGAS ROMANCE ON RENO ROCKS

CARSON CITY, Nev., Mar. 11—(U.P.)—Dr. Arthur A. Lindsay, psychologist, had found a new ideal tonight after divorcing the wife who interfered with his lectures on "The Ideal."

Dr. Lindsay obtained a license to marry Madelyn Clark, who gave her age as over 21 and residence San Francisco, here this afternoon.

The noted psychologist, author, and publisher testified in Reno this morning he could not do justice to his lectures on "The Ideal" because of his wife's cruel treat-

COME TO MARRY; MAY STAY AWHILE

Spanning half the country to meet in Las Vegas to be married, Leon Giles of Hollywood, Calif., and Lillian Figurski, of Delta, Colo., were married here yesterday afternoon by Judge Frank M. Ryan in his office.

Having come here and been married they liked Las Vegas, and the climate so well that they decided to remain here for their honeymoon.

The wife, Gertrude Ann Lindsay, did not contest his suit. They were married in Las Vegas, Nev., in 1914.

TWO-GUN ALTERIE OUT UNDER BOND

CHICAGO, March 11 (U.P.)—Louis (Two Gun) Alterie, Chicago gangster who retired to a Colorado ranch for "his health" only to be arrested and brought back to Chicago after a lapse of several years, obtained his release on \$50,000 bond today pending his trial on kidnap charges.

Charles (Buster) Brown, also charged with being a member of the gang, obtained his release in \$75,000 bond set by Judge Prystalski. Other defendants include John Pingera, William Thomas, Edward Finnen and Neil Mon-

20,000 APPLY FOR WORK ON PROJECT

Citizens of Las Vegas know that the large number of indigent men and even families in Las Vegas is largely due to the number of people attracted here with a view to securing employment on the Hoover dam, but few know the part that the Federal-State employment bureau is playing in keeping additional thousands from trekking in from all parts of the country.

A total of 36,000 letters of application for work have been received and answered in the fifteen month period since the office has been functioning. This huge volume of letters has come from all parts of the United States and Canada, and each letter has been answered by the office.

Since January 1, 1932, there have been more than 6000 personal applications for work at the local labor office on Carson street with the grand total of personal applications for the period since the opening of the office amounting to a total of 20,000.

Each man is required to fill out an application blank, following which the applications are classified, and the men called for an interview when the job is to be assigned.

With the peak of employment nearly reached by the Six Companies and other contractors, and the number of men employed throughout the reservation near to what it will ever be during the progress of the project to completion, the number of new jobs is correspondingly decreased, and dependent almost solely on the labor turnover.

This does not deter the men swarming into Las Vegas with the result that there is a greater surplus of labor in Las Vegas than in many of the large industrial centers of the country.

WOMEN'S CLAIMS PERPLEXCORONER IN DEATH CASE

Coroner Frank M. Ryan and officials of the Palm Funeral home today are trying to solve the problem of whom to send the body of A. O. George, Six Companies employe, crushed to death yesterday between two trucks near the lower portals of the diversion tunnels on the Nevada side of the river.

Six Companies records show George to have been a single man, but a local attorney last night divulged the information that George has been married since November 8, 1921, and had a divorce action pending in Las Vegas.

When his death became known, a woman other than his wife is said to have asked for the body, though the wife of the man was notified later, when her existence became known.

George was 41 years old, and his personal effects showed that he was the possessor of a splendid record of sixteen years' service in the navy, and included several decorations for service in various parts of the world.

Coroner Frank M. Ryan and a jury composed of A. P. Ostensen, Clyde C. Beard and William La-Croix returned a verdict of accidental death, after an inquest that began at the Palm Funeral home, and was continued at the scene of the accident, where several witnesses and fellow workmen of George's testified as to the details of the accident.
