**I**N ADVOCATING equal opportunity for education for the children of North Las Vegas, the Age is not seeking to impose any injustice on Las Vegas nor to deprive our children of every possible opportunity for education. Far from it. We have suggested as pleasantly as we can that we, as citizens of Las Vegas, would be showing a poor spirit if we attempt to make North Las Vegas community bear all the loss and inconvenience which limited school funds may bring.

The Age is quite sure that the Board of Trustees of Las Vegas School District will not do any of the things which the people of North Las Vegas have been led to fear. In fact we can find no authority whatever for the statement that the North Las Vegas school has been cut from the budget.

The funds in charge of the board, contributed by taxpayers for educational purposes, will, we have no doubt, be used for the equal advantage of all the children in the district.

It will be impossible, of course to meet every requirement, and it is certain that some inconveniences will result, but we may rely upon the board to spend the school moneys as near as may be for the equal benefit of all.

Which means that there will be reasonable school facilities provided for North Las Vegas before the next school year begins, notwithstanding all ifs and ands which complicate budget figures.

**WAGON TRACKS?**

**A** FRIEND from Searchlight yesterday, referring to an editorial in The Age recently, charged us with referring to the Searchlight highway as a "wagon track." Which, of course, The Age did not do.

The Searchlight road only ten years ago was only a track through the country. No grading, no room for passing, no culverts or bridges—just two deep ruts which often left cars hung up helplessly on high centers.

Now there is a very good highway, wide enough for safe passing, reasonably smooth with a reasonable driving speed of 40 miles per hour without danger.

That result has been attained by the county highway department with the road funds available. Last year we are told the Searchlight road was given \$9,000 of county road funds for maintenance. And in our opinion it would be a grave error on the part of any person to seek to induce the county commissioners to withhold funds from this highway on the false assumption that the state highway department can take it over for maintenance.

In view of the fact that the cost of county maintenance of the Las Vegas-Searchlight-State Line highway has been materially decreased by the state construction and maintenance of almost twenty miles included in the Boulder Dam highway, it is not unreasonable to hope that the county can the coming year devote most of its maintenance money to putting a little oil on the excellent natural gravel surface which the highway now has, at least on that part between Railroad Pass and Searchlight.

**THE WASHINGTON BYSTANDER**

BY KIRKE SIMPSON  
WASHINGTON—Big, good-looking and wealthy Pat Hurley, President Hoover's War Secretary, and reputedly one of his severest political right hands, is beginning to be suspected of temperamentalism.

Whatever his justification for walking out on a Senate committee hearing or more or less thumbing his nose at a House committee which desired to "ride" HENRY HURLEY aim about plans, those have not been the ways of past cabinetiers. Mr. Hurley, of course, is relatively young. He's a year under the half century mark. Also, he's Irish—a very important factor in any estimate of the psychological elements of the Hurley-Congress row. And he has never served in a legislative body. That is another important point.

**POLITICALLY AMBITIOUS**  
Then too Mr. Hurley is politically ambitious—as he would cheerfully admit.

If Mrs. J. Buck will call at The Age office, she will receive a free ticket, good for today only at El Portal theater.

**MANHATTAN MIRRORS**

By United Press  
NEW YORK, Mar. 10. (AP)—The panhandlers of Manhattan are raising their demands. The "nickel for a cuppa coffee" rose today to a new high for the year of \$50.  
Standing at 42nd street and Broadway, Frank K. Moore, who says he is an efficiency expert when he is employed, loudly demanded that sum from passers-by.  
"I will pay 6 per cent and guarantee your money back," he roared.  
The efficiency expert drew a large crowd, among them a policeman. In court, Moore received a suspended sentence, and when he left he told spectators that he still needed the \$50.

George U. Harvey, who is president of the Borough of Queens, is enraged because the engineers of the regional plan committee located the actual heart of New York in Calvary cemetery.  
"That is more than splitting hairs," he said. "It is splitting tombstones. The committee showed poor taste in standing on an exact mathematical formula and letting people know that the center of population was in a graveyard."

In order to be De Rigueur or A La Mode this spring, you must have a champagne cork dangling from your handbag—if you carry a handbag. The rage for articles made out of cork extends to bracelets, brooches, clips and other feminine ornaments.

Reports that Columbia university men are in great demand as "bodyguards" since the world's most famous baby was kidnapped, were denied today. They are not "guards" but merely "masculine influence."

Otto Schwartz, big Columbia halfback, who goes walking with two young children every morning, is an example. Parents believe that what with governesses when they are little, and women school teachers when they are big, the children need to absorb a little he-man stuff.

The university's employment bureau has placed 25 of the boys in similar jobs this year.

Smoothly syncopated music, bewitching songs, combine to make the entertainment at the Pair-O-Dice casino fitting accompaniment for the perfectly prepared and served food featured there.

Howard Jones and his orchestra furnish the music to which the diners dance, with vocal choruses by Jack Allen, popular singing drummer.  
Jeanne Ray sings the blues, and in a fashion all her own, that earned her a place with Fanchon and Marco in their "Types Idea," which toured the Fox movie palaces of the east several months ago.  
Beulah Van sings her own type of soprano numbers, containing the hit she has always made with Las Vegas diners at the Pair-O-Dice.  
Accompaniment for the vocal numbers is furnished by Marie, petite pianist, who has long been a favorite here in the desert.

**HOUSE**  
Secretary of Interior Wilbur urged expenditures committee to approve a bill consolidating the public works functions of the government.

Federal farm agencies accused by livestock exchange and commission men in testimony before agriculture committee of trying to get a monopoly on the livestock business.

Began debate on the new billion dollar tax bill.  
Military affairs committee voted to report a bill leasing the fertilizer plants of Muscle Shoals with the government operating the power plants.

Sub-committee voted to unseat Rep. Granata, Reppn. Ill., and give his place to Stanley Kunz, a Democratic contestant.

**SENATE**  
M. R. Rukeyser, Columbia university professor, advocated a five billion dollar bond issue for public works to relieve unemployment.

Senate Democrats turned against house colleagues and attacked sales tax plan in new revenue measure.  
Senator Blaine, Reppn. Wis., announced judiciary sub-committee would hold hearings on March 18 and 19 on nomination of Judge Kenneth McIntosh of Washington to the U. S. circuit court.

Chairman Bingham of the insular affairs committee announced he intended soon to move to take up Hawes-Cutting bill authorizing Philippine islands to adopt a constitution and eventually attain independence.

The Eldorado Empire Mining Company is an Arizona Corporation with a Capital of 1,000,000 shares of a par value of ONE DOLLAR per share of which 970,000 shares are outstanding and 30,000 shares in the Treasury. The Company owns the "Black Hawk" patented Mine, which is now developed and ready to produce GOLD, but the mine lacks a mill and water to run it. However, I own a mill and water rights developed nearby, which I have arranged to rent to the Company. This mill can be set up within 90 days. The mine is located in the center of Eldorado Canyon, just 15 miles South of the Boulder Dam site, in Clark County, Nevada.

In order to bring this mine to the producing stage after the stockholders had done all they were able to do I loaned the Company \$85,000 for which they gave me 6 per cent notes due June 8, 1934. There is now due an additional \$10,000 in interest, making a total of \$95,000 now due me. The Company has now given me permission (after I made at my expense in the mine probably the greatest strike ever made in Clark County) to set up my mill on the mine and take out in gold the \$95,000 coming to me, after which the profits will go to pay dividends on the capital stock.

In order to carry through this program I must borrow at a time when money is tight. But my necessity is your opportunity. The following offer is so attractive that you cannot afford to pass it by: I own the Company's note for \$10,000, for which I paid cash. This note is payable on or before June 8, 1934, with accumulated interest at 6 per cent per annum. I propose to put up this note for security and against it issue \$10,000 of my own personal notes in denominations of \$100, \$200, \$500 and \$1,000, same to run to June 8, 1934, with interest at 6 per cent per annum. For every dollar you lend me on my note I will give you as a bonus one share of my personal stock in the Company. (If you bought this stock from the Company, you would pay the par value of One Dollar per share. Then we will erect my mill, take out the \$10,000 in gold, with which we will repay your note with interest and you will own a block of stock in the Eldorado Empire Mine, that has cost you nothing.

C. E. L. GRESH,  
Box 368, Las Vegas, Nevada, or Eldorado Empire Mine in Eldorado Canyon.

P. S.—Our next work opens the mine on the 400-foot inclined level where bonanza ore is possible.
