Chesterfield to follow. And even if you're

rushed...there's time to appreciate Chest-

erfield's better taste.

- One man likes his coffee weak. Another likes it strong. But it's dollars to doughnuts both want mild cigarettes. And that means Chesterfields. They get you started on the right foot. They're good anywhere. Anytime.
- And later...in the office when the phones begin to buzz and the big boss begins to shout ... put Chesterfield on the job. It starts out cool ... stays cool ... and keeps you cool in a hot spot till the final whistle blows.
- It's going to be a big evening. So change your clothes and step out. And don't forget your Chesterfields. You'll need them. And if it's mixed company you'll want to take an extra pack. Their purity is their password...wherever people are particular.
- Chesterfield has never failed to make its contract. It bids a grand slam for mildness and better taste...and comes through with all the honors every time ... Because every shred of Chesterfield leaf is carefully selected...and by men who "know."
- One more Chesterfield and you can call it a day. And notice...the last one tastes just as good as the first. That's no accident. That's the sum and substance of Chesterfield's popularity...told in two words... "They Satisfy."
