THURSDAY IN CONGRESS

By United Press SENATE Republican leader Snell conceded today to a request of 39 Republicans for a conference on the sales tax. Democratic leader Robinson denounced the reported plan of the administration to institute debt reduction negotiations with Great Britain. Senator Glass, Dem., Va., introduced his banking reform bill providing for a \$700,000,000 corporation to liquidate assets of closed banks of the federal reserve system. Edmond D. Campbell, Washington attorney, told a subcommittee that congress could constitutionally regulate coal corporations operating in interstate commerce. HOUSE Continued debate on the billion dollar tax bill. Chairman Byrns of the appropriation committee said after the tax bill had been disposed of the house would consider a measure for a general reduction of government salaries. Approved the conference report on the Norris-LaGuardia anti-union bill. Immigration committee favorably reported Moore bill indefinitely suspending quota immigration and putting drastic limitations upon immigrants from Canada, Asia and other nations in the western hemisphere.

G. M. C. PROFIT IS ANNOUNCED

NEW YORK, March 17. (U.P.)—Net profit of General Motors corporation during 1931 amounted to \$96,877,107, equal to \$2.01 a share on common stock, compared with \$151,098,992, or \$3.25 a share in 1930, the annual report of the company disclosed today. Despite the decline in earnings during the past year, Alfred P. Sloan, jr., president, said that "the competitive position of the corporation's current offerings justifies belief that General Motors will more than hold its own with respect to the distribution of the available business during 1932."

MARKETS AT A GLANCE

By RICHARD L. GRIDLEY United Press Staff Correspondent

NEW YORK, March 17. (U.P.)—The reaction in the stock market ended suddenly today when word was passed around the financial district that several threatened railroad defaults had been eliminated and that the railroad outlook was not as serious as had been indicated by recent breaks in securities of this class.

Prices were driven down sharply through the morning trading, many leaders in the railroad group breaking to further bear market. The reaction in the stock market ended suddenly today when word was passed around the financial district that several threatened railroad defaults had been eliminated and that the railroad outlook was not as serious as had been indicated by recent breaks in securities of this class. Prices were driven down sharply through the morning trading, many leaders in the railroad group breaking to further bear market. The reaction in the stock market ended suddenly today when word was passed around the financial district that several threatened railroad defaults had been eliminated and that the railroad outlook was not as serious as had been indicated by recent breaks in securities of this class.

Because the future movement of the market has been indicated so many times in the recent past by the railroad shares, recoveries in these issues quickly recovered a retreat during the trading hours who have been putting out fresh short lines of profiting recent periods of weakness. The manner in which many issues recovered from their early lows indicated that the short interest had swollen to unwieldy proportions.

Nothing occurred in the outside news to account for large scale operations on either side of the market, although traders were pleased with the overnight reduction of the Bank of England discount rate from 4 to 3 1/2 per cent, which may foreshadow another reduction here as the federal reserve carries out its easy money policy. No change was made at today's meeting, however. The brokerage loan statement, made public after the close of the market showed an increase of \$9,000,000 on top of the \$57,000,000 increase of last week and showed the at least temporary stemming of the "deflation" movement.

Most of the market leaders today closed at or near their best levels of the session, erasing a good part of the decline during the three earlier sessions of the week. More exciting recoveries occurred on the bond market where the railroad news caused wild advances in such Van Sweringen issues as Missouri Pacific, Nickel Plate and Chesapeake & Ohio.

Steel common closed more than a point higher at 43 1/2, after touching a new low for the current movement at 41 1/2 and corresponding recoveries took place in American Can, Allied Chemical and Westinghouse Electric. Pressure continued on the motor group, however, influenced by the delay of Ford in bringing out his new model. Prospective automobile buyers are keeping out of the market in large volume until they have a chance to look at the new Ford.

General Motors was especially weak, reaching another new low for the present shares at 18 1/2, but later recovering to the close unchanged at 19. The 1931 annual report of the corporation made public after the close of the market, showed continued strong financial position with profits last year equal to \$1.01 a common share, against \$3.25 a share in 1930. Auburn again showed special strength, closing more than 3 points higher.

L. A. POWER BOND ISSUE PLANNED

LOS ANGELES, Mar. 17. (U.P.)—A resolution asking that a \$34,400,000 power bond issue be placed on the May 3 ballot was unanimously adopted by the board of water and power commissioners and is to be presented to the city council soon. Funds derived from the bond issue will be used primarily to transmit and distribute power generated at Boulder dam, President Arthur Strassburger told the commissioners. He had cited previously the city's obligation to buy power generated at the dam, as contracted on April 26, 1930. Voting the power bonds would make possible the transfer of \$1,000,000 annually to the general fund of the city from the department's power funds now on hand.

BROADWAY WISE BETTING BOYS LEFT WIDE OPEN

NEW YORK, March 17. (U.P.)—Broadway's wise money boys laid themselves open for another run on their dwindling bankrolls tonight when they established Sammy Fuller, pudgy Bostonian, as an 8-to-5 favorite to defeat Billy Wallace, veteran ring campaigner of Cleveland, in their 10-round bout at Madison Square Garden tomorrow. The boys who make a business of making odds went down with no colors flying in their last start in the figurative garden betting ring. They said that Eddie Ran was 8-to-5 over Battalino and the Bat made them wrong, all along. Fuller, ranked as a leading contender for Tony Canzoneri's lightweight title, feels his rating is not undeserved. He believes he is a better man than Tony for he beat the titleholder in a recent overweight match.
