A LECTURE ON CHRISTIAN SCIENCE

Entitled Christian Science, A Religion of Results

By MRS. SEVICK E. RITCHIE, C. S. B., of Levittick, Penn. Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

In the Bible, we read that Jesus said, "Freely ye have received, freely give." The purpose of this lecture is to share with you something of the teachings of Christian Science and tell you in a simple, direct way how this great religion heals, blesses, and redeems mankind. Students of Christian Science early learn the value of true giving and the blessedness of generously sharing with others their gift of spiritual understanding, that all who truly seek freedom from sorrow, sickness, discouragement, and sin may partake of the health, happiness, and wholeness, — ponder the deep things of God and learn how to understand and apply the rich promises of the Bible to the problems of everyday living. For surely the greatest of all gifts is a correct understanding of God, and man as His likeness.

Christian Science is the name of the religion which proves the works of God. It teaches how to express in daily living the truth taught by Christ Jesus. It is obvious that he expected his followers to understand his teaching and emulate his example, for he said: "He that believeth on me, the works that I do shall he do also," and, "Greater works than these shall he do." The world is beginning to realize that the healing of the sick is an essential part of Christianity. Christian Science is putting into operation the healing truth taught and practiced by Jesus and proving to the world by evidence unmistakable that through its teaching, the commandments of Jesus to heal the sick, preach the Gospel and comfort the sorrowing are being fulfilled. It is a great joy to those who become students of Christian Science to find that its teachings are founded entirely upon the Bible and that

there is no conflict between the teachings of Christ Jesus and the teachings of Christian Science. Because Christian Science is founded on the Bible, it will stand, and the demonstration of its teachings will more and more approach and prove the works of Jesus.

We learn through Christian Science to value goodness, to desire the beauty of holiness taught in the Scriptures. The teachings of Christian Science will unlock to all earnest seekers, when rightly understood, the treasures of the Bible and make its rich promises available here and now. As we understand these promises, we gain a correct concept of God, and man made in His likeness, and learn how to reflect this truth in daily living, ever striving to prove the availability of God and His laws. To understand the law of life, health, and holiness, GOD.

Christian Science teaches that the Principle of being, the first and only Cause, is God. Does it not therefore, follow that the law governing God's perfect creation must of necessity be exact, unflinching, and unchangeable? Christian people whose religion is based upon the Scriptures concede that God is Life, Truth, Love, Spirit. In the Christian Science textbook, on page 465, to the question, "What is God?" Mrs. Eddy answers, "God is incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love." Words cannot define God more clearly, for if we take each term, examine it carefully, we find that we have a knowable, provable God, a first Cause from which must proceed all that is real and eternal.

In the Bible, we read in the first chapter of Genesis, "And God saw every thing that he had made, and behold, it was very good." Here is a complete record of creation, telling us that God made all that was made, and that He made man in His image and likeness, spiritual and perfect. If the creation of God is complete, spiritual, and perfect, as the Bible states, then another

record of creation could not possibly change this true spiritual creation. Christian Science unfolds the great fact of spiritual existence and creation, maintaining with Biblical authority that God being infinite, all because of His pure, spiritual nature, could not create anything unlike Himself. God could not create sin, disease, sorrow, poverty, death. These disorders are the beliefs of the carnal mind which Paul tells us "is enmity against God."

Christian Science declares that since God is Spirit, spiritual man, the image and likeness of Spirit, God, forever reflects all the qualities of Spirit. These qualities cannot be lost or impaired, because being spiritual and God-given they are permanent and indestructible throughout all time. It teaches that God, infinite ever-present good, expresses through the real man these qualities without limitation. As we begin to understand God in all His glory these divine qualities are expressed. To demonstrate this understanding through healing, right thinking, and living is the aim and purpose of Christian Science teaching and practice.

Manifestly it is necessary to understand the true nature of God, and man as His likeness. The basis of the Christian Science teaching about man is Scriptural, and is given in the first chapter of Genesis, where we read, "God created man in his own image, in the image of God created he him." Then if man is created in the image and likeness of God, he reflects all of God's qualities. Therefore, God's man reflects all intelligence, all wisdom, and is capable of judging wisely; for Mind, God, is supreme. Man reflects health, happiness, and harmony, because he is the infinite expression of Soul or substance, which does not sin, suffer, or cause discord of any kind. Christian Science can give proofs of thousands of authenticated cases of healing, many of them so-called incurable diseases. These healings have been accomplished through realizing the truth about man, that he is spiritual, the image and likeness of God; that he reflects health, happiness, and dominion. The true man, however, is not the imperfect, mortal concept of man,—the man of flesh, blood, and bones. He could not earnestly seek for truth think for a moment that a sick, sinning, dying mortal could be the real man made in the image and likeness of God? Man, in his mortal, material condition, is the Adam, needs to be awakened from the Adam dream, the cause of human woe; from the belief of life in matter, the belief that man is formed from the dust of the ground, to the realization of man's true birthright, his God-given dominion over all things. So long as we believe that the dust-man is real and that there is a human self-existence apart from God, we may seem to have a hard and long struggle.

The study of Christian Science corrects this wrong concept of man, and disperses the mists of materiality with the sunlight of spiritual understanding. It has cleared the pathway for many a sufferer. Mists of evil, sickness, fear, may still cling to thought and try to obstruct the way, but these are rapidly being dissolved and mankind is beginning to realize something of the truth taught and practiced by Jesus. Jesus taught universal freedom and

Christian Science teaches that God, Spirit, is the only Cause and Creator, and that He is infinite, all-inclusive good. It also teaches that spiritual man is the expression of God's infinite perfection, and reflects only that which is pure and holy. Therefore to His God's reflection and fulfill His holy purpose we must actively manifest the glory of infinite, divine Love. In no other way can the goodness and love of God be manifested to the world other than through the lives of His faithful, consecrated witnesses.
