AIRDOME WILL OPEN TONIGHT

Opening tonight for the summer season, the Airdome theater, at First and Carson streets, Las Vegas' only open air show, is bringing to this city an unusually full and complete bill.

Starting at 6:45, the triple bill tonight will open with "War in China," an authentic, three reel film of the war horrors in Shanghai when the Japanese invaded the international city. The film is not a news reel and is said to be a startlingly vivid record of the fighting.

Next on the bill tonight is "The Age for Love," a United Artists picture which metropolitan critics have praised as one of the outstanding films of the year.

It signals the return to pictures after more than a year of vacation and preparation, of Billie Dove, who before the film was released was known as "the most beautiful woman on the screen."

"The Age for Love," presents their finest screen portrayals, since they entered motion pictures, of such brilliant performers as Edward Everett Horton, Lois Wilson, Mary Duncan and Charles Starrett.

Last, and new to Las Vegas, is the "Mystery Heirs," a three-act mystery stage drama, with a novel comedy twist. Presented by the Avalon players, with a cast of nine, the comedy thriller will be the first of a series of presentations to be offered this summer on the Airdome stage.

The "Mystery Heirs" has been in rehearsal more than a month in San Diego, and is said to be a completely finished and polished presentation.

The Avalon players will also present specialty numbers throughout the program.

TINIEST BABY CHANGES DIET

KANSAS CITY, Mo., April 8. (U.P.)—The 14 inches and one pound of humanity that is Baby St. John is well on the way to losing its claim to distinction as the world's tiniest baby.

For the boy, nameless as yet because, as his Uncle Harold says, any kind of name would be too big for him, is consuming man-sized food. Twelve drops of it every two hours, and that is calculated to bring him out of the featherweight class.

For four days he threw mightily in spirit on a concoction of sugar, water and cow milk. But his physique did not expand proportionally, and his mother's milk was substituted.

STATE PRISON, FLORENCE, Ariz., April 7. (U.P.)—Irrational behavior of Winnie Ruth Judd, convicted killer of Mrs. Agnes Anne Lerch, caused prison authorities to move her from death row to the women's ward, it was disclosed today.

Mrs. Judd was hysterical for several days and acted so strangely in her death row cell that Warden William Delbridge ordered her moved to more pleasant surroundings.

She also is expected to attend the congress of the Women's International League for Peace, beginning May 15 in Grenoble, France.

Two other gatherings included in her tentative itinerary are the International Congress of Social Work, also in May at Frankfurt-on-the-Main, and the International Federation of Settlements meeting at Berlin in July.

FAITH IN PEACEFUL METHODS—Even in the face of the Sino-Japanese conflict, the founder of Chicago's Hull House maintains an abiding faith in man's ability to settle international disputes without war.

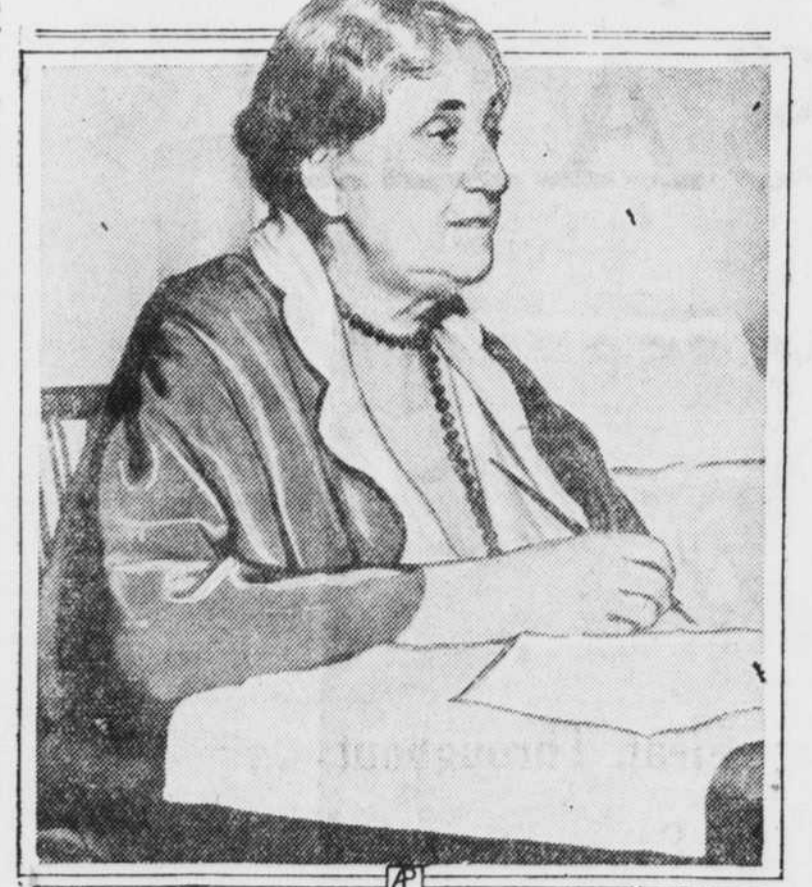

She finds gratification in widespread expressions of disapproval over the aggression of Japan in the Far East, but thinks "Japan should have its day in court."

"The nations that have cried the loudest against Japan's action," Miss Addams said, "have been equally guilty of such aggressions."

CRIES U. S. CONSTITUTION—Of course, events in Manchuria and Shanghai are disappointing in relation to the League of Nations, but it would be an unheard-of thing for any such new institution to succeed at once.

"Even the constitution of our own government didn't achieve its prestige all at once."

Ready Again To Further World Harmony

Jane Addams, founder of Chicago's famous Hull House, is planning a trip abroad in the interest of world peace. "In China, where in every province there is a general who wants to make himself master of the situation," she said, "it must be provoking for such a people as the Japanese.

HELP START A GOLD BOOM We Need It . . . . .

The Eldorado Empire Mining Company is an Arizona Corporation with a Capital of 1,000,000 shares of a par value of ONE DOLLAR per share of which 970,000 shares are outstanding and 30,000 shares in the Treasury. The Company owns the "Black Hawk" patented Mine, which is now developed and ready to produce GOLD, but the mine lacks a mill and water to run it. However, I own a mill and water rights developed nearby, which I have arranged to rent to the Company. This mill can be set up within 90 days. The mine is located in the center of Eldorado Canyon, just 15 miles South of the Boulder Dam site, in Clark County, Nevada.

In order to bring this mine to the producing stage after the stockholders had done all they were able to do I loaned the Company \$85,000 for which they gave me 6 per cent notes due June 8, 1934. There is now due an additional \$10,000 in interest, making a total of \$95,000 now due me. The Company has now given me permission (after I made at my expense in the mine probably the greatest strike ever made in Clark County) to set up my mill on the mine and take out in gold the \$95,000 coming to me, after which the profits will go to pay dividends on the capital stock.

In order to carry through this program I must borrow at a time when money is tight. But my necessity is your opportunity. The following offer is so attractive that you cannot afford to pass it by: I own the Company's note for \$10,000, for which I paid cash. This note is payable on or before June 8, 1934, with accumulated interest at 6 per cent per annum. I propose to put up this note for security and against it issue \$10,000 of my own personal notes in denominations of \$100, \$200, \$500 and \$1,000, same to run to June 8, 1934, with interest at 6 per cent per annum. For every dollar you lend me on my note I will give you as a bonus one share of my personal stock in the Company. (If you bought this stock from the Company, you would pay the par value of One Dollar per share. Then we will erect my mill, take out the \$10,000 in gold, with which we will repay your note with interest and you will own a block of stock in the Eldorado Empire Mine, that has cost you nothing.

P. S.—Our next work opens the mine on the 400-foot inclined level where bonanza ore is possible.
