

### ARMY MEN TO MEET TONIGHT

Army reserve officers of southern Nevada will meet tonight with the Las Vegas chapter, Reserve Officers' association of the United States, for a special dinner meeting at the Hotel Apache.

The meeting is occasioned by the visit of Lieutenant K. S. Olson, U. S. Infantry, from the headquarters of the Third Reserve area, Salt Lake City.

Lieutenant Olson is the regular army unit instructor for infantry units in this area, and has taken an active interest in the establishment and operation of the general school for reserve officers which has been conducted here since last summer by Capt. D. Harford, under the auspices of the local reserve officers chapter.

Lieut. T. P. Ragsdale, MI-Rts., will preside at tonight's meeting, which will convene at 7:00 o'clock. All officers are expected to attend and discuss problems of mutual interest, which will include their assignments, promotions, classes, and camp attendance, with Lieutenant Olson.

Major L. J. Howard, Capt. H. O. Davis and Lieut. C. D. Baker compose the committee on arrangements.

Approximately twelve officers are expected to attend from Boulder City, there being more than twenty officers in Las Vegas.

### RENO MAYOR UP ON FENCE

RENO, Nev., April 20. (U.P.)—Mayor E. E. Roberts, leader of Reno's "open town" advocates, told a Republican county convention today that he was opposed to adoption of a wet plank by the Republican national convention.

While denouncing the prohibition law, the mayor explained his seeming inconsistency by saying "we wet Republicans will understand, realizing we need the help of western long-hairs in electing Hoover."

"Let the Democrats fight about wet and dry planks," the mayor advised, "while we remain silent and emerge victorious, as was the case four years ago."

Veteran political observers said today's remarks probably were the closest Mayor Roberts ever came to dryness. During his last mayoralty campaign he declared he would like to place a "barrel of whiskey on every corner" in the Reno business district.

### CHANGE UTAH DEATH CHARGE

SALT LAKE CITY, Utah, April 20. (U.P.)—City Judge Daniel Harrington today bound over Clarence J. Elder, to the district court to face reduced charges of voluntary manslaughter.

Elder, who was accused of firing three shots into the body of James L. Beveridge, killing him almost instantly, was previously charged with first degree murder.

Judge Harrington said he reduced the charges after considering evidence given in Elder's preliminary hearing, and considering it would be a waste of time to press first degree murder charges.

The shooting, which climaxed an asserted love tangle between Mrs. Elder and Beveridge, was done in a fit of anger, and was not premeditated, Judge Harrington ruled.

### RENO-BOUND SHIP CRACKS

SODA SPRINGS, Calif., April 20. (U.P.)—Eight passengers of a United Airlines plane en route from Oakland to Reno, Nev., were brought to the Soda Springs hotel late today after Pilot Harry Huking made an emergency landing about ten miles east of Cisco, Calif.

The passengers were not injured although the plane was badly damaged. Huking received a slight cut on the head.

### TEACHER IS SHOT, KILLED

MANTECA, Calif., April 20. (U.P.)—Mrs. Ollie B. Taylor, 55, teacher at the Castle school, was killed and William Devol, 70, janitor, who tried to protect her, was probably fatally wounded today, allegedly by an angry parent.

Seven school children saw the shooting.

Tom Coumos, father of a second-grade student in Mrs. Taylor's class, was being hunted tonight, suspected of the shooting.

The Coumos child was reprimanded by Mrs. Taylor yesterday, sheriff's officers said they learned. Today Coumos went to the school. He allegedly was on the point of striking the teacher when Devol interfered. What happened then was not definitely established tonight. Devol, seriously wounded, could not talk. The children could not give identical accounts.

According to Utah's county assessors, range cattle and purebred herds increased during 1931 over 1930, but the number of range sheep and horses decreased.

A "taxi war" recently was precipitated in Galveston, Tex., when a line offered a rate of ten cents to any place within the city limits.

# HELP START A GOLD BOOM

## WE NEED IT . . .

The Eldorado Empire Mining Company is an Arizona Corporation with a Capital of 1,000,000 shares of a par value of ONE DOLLAR per share of which 970,000 shares are outstanding and 30,000 shares in the Treasury. The Company owns the "Black Hawk" patented Mine, which is now developed and ready to produce GOLD, but the mine lacks a mill and water to run it. However, I own a mill and water rights developed nearby, which I have arranged to rent to the company. This mill can be set up within 90 days. The mine is located in the center of Eldorado Canyon, just 15 miles south of the Boulder dam site, in Clark County, Nevada.

In order to bring this mine to the producing stage after the stockholders had done all they were able to do I loaned the Company \$85,000 for which they gave me 6 per cent notes due June 8, 1934. There is now due an additional \$10,000 in interest, making a total of \$95,000 now due me. The Company has now given me permission (after I made at my expense in the mine probably the greatest strike ever made in Clark county) to set up my mill on the mine and take out in gold the \$95,000 coming to me, after which the profits will go to pay dividends on the capital stock.

In order to carry through this program I must borrow at a time when money is tight. But my necessity is your opportunity. The following offer is so attractive that you cannot afford to pass it by: I own the Company's note for \$10,000, for which I paid cash. This note is payable on or before June 8, 1934, with accumulated interest at 6 per cent per annum. I propose to put up this note for security and against it issue \$10,000 of my own personal notes in denominations of \$100, \$200, \$500 and \$1,000, same to run to June 8, 1934, with interest at 6 per cent per annum. For every dollar you lend me on my note I will give you as a bonus one share of my personal stock in the Company. (If you bought this stock from the Company, you would pay the par value of One Dollar per share.) Then we will erect my mill, take out the \$10,000 in gold, with which we will repay your note with interest and you will own a block of stock in the Eldorado Empire Mine, that has cost you nothing.

C. E. L. GRESH, Box 368, Las Vegas, Nevada, or Eldorado Empire Mine in Eldorado Canyon.

P. S.—Our next work opens the mine on the 400-foot inclined level where bonanza ore is possible.
