### DAVIS CUP PLAY GETS UNDERWAY

BERLIN, May 10 (U.P.)—Miss Helen Jacobs of California teamed with Jacques Brugnon, French Davis cup player, to defeat Fraulein Elsie Koehne and Theo Hartz of Berlin, 8-6, 6-3, in a match of the Berlin doubles tennis championship today.

PARIS, May 10. (U.P.)—Possibility that Rene LeCote would return to Davis cup competition was seen in the announcement today that he would represent France in singles in the annual Franco-British tennis tournament at Auteuil, May 14.

### HARVARD CREW TO GET FIRST TEST

NEW YORK, May 10. (U.P.)—Harvard's varsity crew, one of the east's potentially strong candidates for the Olympics, will get its first real test Saturday when it rows against Navy, Penn. and M. I. T. in the four-cornered regatta at Annapolis. The crimson eight displayed power but lack of finesse in defeating M. I. T. by little more than one length last Tuesday on the Charles river. This victory was not impressive because M. I. T. previously had lost to Yale by three lengths. However, the Tech boat had been shaken up for the Harvard contest, and apparently put up a stiffer fight.

VISITING HERE  
Mrs. H. H. Self, of Long Beach, Calif., arrived Monday and is visiting at the home of Mr. and Mrs. Harve Perry.

## L. A. YOUTH IS FOUND GUILTY

(Continued From Page One)  
The argument made to jurors in Driser's novel.

"Roberta Allen loved this defendant," said Lois Wade love this defendant with all the strength of her soul. She loved him with that love which is the crowning mystery of the human brain and human heart. . . . She was a true and human and decent and kindly girl—a passionate and loving girl—and she loved as only a generous and trusting soul can love. And loving so, in the end she gave to him all that any woman can give to the man she loves.

"NOT NEW—NEVER OLD"  
"Friends, this thing has happened millions of times in this world of ours and it will happen millions and millions of times the days to come. It is not new and it will never be old."

"But in January or February last, this girl was compelled to come to this defendant and tell him she was about to become a mother."  
The state asked the full penalty of the law for Newland.

## GASTON MEANS IS INDICTED

(Continued From Page One)  
whispered "numero eleven" to him. Means says he handed that man the money.

Rover said the government would show Means' story was "an absolute fabrication." In his plea he asserted: "It is set at \$25,000, as defense counsel desires. Means will still have \$75,000 of the \$100,000 Mrs. McLean gave him, and it will be sufficient to take him to the far corners of the earth. I am convinced that unless bail is \$100,000 Gaston B. Means will not be here when this case is called for trial."

OLD OFFENDER  
J. William Tomlinson, defense counsel, pointed out that Means had been indicted several times before and that he always had appeared for trial even when bail was as low as \$3,000 or \$5,000.

Rover replied he was suspicious of the whole affair because Means had specified to Mrs. McLean that the \$100,000 should be in old bills, more difficult to trace than recent issues of currency.

Conviction on either the larceny after trust or the embezzlement charge would subject Means to a maximum prison term of 20 years and a fine of \$2,000. Formal arraignment is set for Friday in the district supreme court, where Means is expected to renew his plea of not guilty. He is in the district jail.

## ENGAGEMENT OF VIRGINIA HORSEY REVEALED HERE

Mr. and Mrs. Charles Lee Horsey have announced the engagement of their daughter, Miss Virginia Horsey, to Mr. Fred Alfred. The ceremony will take place June 11 and will be performed at the Little Church of the Flowers, Glendale, Calif.

Miss Horsey is attending the state teachers college at present, and Mr. Alfred is comptroller and director of athletics at State Teachers college. The young couple intend to make their home in Santa Barbara, after a trip through northern Nevada and Yosemite park.

ROY T. Lockhart, an old-time resident and official of this city and county, was in Las Vegas Monday. Roy is now an extra baggeman on the U. P., having been bumped out of brakeman.

Las Vegas was visited Monday by a bunch of Union Pacific officials on a trip of inspection. The party went to Boulder City in truck auto cars B-241 and B-242, returning to Las Vegas in the afternoon. In the party were President Carl Gray, General Superintendent of Motive Power J. W. Highleyman, Assistant General Superintendent of Motive Power J. W. Burnett, General Manager Knickerbocker, Supt. Coy and some others. They left for Los Angeles last night on Train No. 21.

A train crew has been pulled off the 2nd district freight, which places Engineer Lowell and Fireman Vic Clapp on the freight extra board. Engineer Lowell lost no time, but promptly ousted Engineer Franke off the 11:30 switch. Up to the present time Fireman Clapp is figuring.

Engineer Bert Diehl, the lightweight engineer (he weighs 260 lbs.) and runs second to Engineer Bailey, stepped in and ousted Engineer Jack Hauns of the extra board, who in turn hikes out for Los Angeles.

H. L. Olive, wife and daughter Judith, contemplate leaving for Pocatello, Idaho, soon on a visit. Mr. Olive is one of the boys recently let out in the car department on account of force reduction.

Engineer Sam Wengert is now on the fireman side of the engine, having been bumped off the engineer job. He immediately bumped Fireman Hilo off the passenger run and Hilo gets in and bumps Barrow. It's got so a fellow just can't stay on a job; some other guy always bumps in.

Bill Beatty, bridge carpenter in the B & E, who has been in the hospital at Cedar City and was to have come home Monday, had to return to the hospital to undergo another operation. It is hoped that Mr. Beatty will soon be with us again.

Train No. 22 came into Las Vegas somewhat late Monday, owing to an unavoidable accident to engine 7869. Engines have their troubles as well as persons; that is why railroads have shops and roundhouses—engine hospitals.

Engineer Frank Ayers of Los Angeles, and brother of Engineer Bert Ayers of this city, spent a couple of days in Las Vegas visiting. He came and returned to Los Angeles by auto.

## MARKETS AT A GLANCE

By OTTO E. STRUM  
(United Press Financial Writer)  
NEW YORK, May 10. (U.P.)—An air of confidence prevailed in Wall street today as stock, bond and commodity prices engaged in a quiet advance.

The stock market was unruffled by the April unfilled order report of the Steel Corp., showing a drop of 143,487 tons and when the final gong sounded leading shares showed gains of fractions to a point and more.

Brokers reported a little less timidity among potential investment buyers of stocks and some of this purchasing was inspired today by an encouraging display of strength in United States government bonds. The turnover was so light, however, that the tickers doled out the tape at a snail's pace, with considerable pauses at times.

Oil stocks hogged the spotlight today, meeting a good demand that started with the opening gong. With a conference of world oil moguls that is expected to step up the industry just around the corner, good gains were made by Standard of New Jersey and California and other leaders.

The weekly carloadings statement was not half as bad as Wall street had looked for, showing a loss of only 8,368 cars from the preceding week, a point that helped railroad stocks put on a strong front. Union Pacific, Pennsylvania and Frisco closed with fractional gains.

For once an optimistic statement did not send the market down and President Hoover's remarks that the country is recovering courage from congressional efforts to balance the budget were credited with bringing in some stock buying.

Steel sold off early in the session when the tonnage report was published, but rallied from the low with the rest of the market. The close, however, was one-eighth below yesterday's final price. General Motors, Westinghouse Allied Chemical and other industrial leaders added fractions to their values.

Public utility stocks participated fully in the market's quiet improvement. Public Service closed a point higher at 44 1/2. North American and Consolidated Gas had plenty of friends and climbed fractionally.

The brisk demand in evidence for United States government issues in yesterday's session continued unabated and improvement invaded other sections of the bond list, particularly the much-maligned domestic corporation loans.

Wheat was quiet and steady by evening up of accounts in preparation for the government's wheat crop forecast, as suggested by condition of the fields as of May 1. The report, when issued, indicated a winter wheat crop of only 440,781,000 bushels, against last year's yield of 787,000,000 bushels.

Dulness held the cotton market in check and prices held closely to yesterday's final levels, finishing slightly lower.

KANSAS CITY LIVESTOCK  
KANSAS CITY, Mo., May 10. (U.P.)—Cattle receipts at the western markets were light for this time of year, and no improvement was reported in prices. Steers and yearlings ranged around \$4.50 to \$6.75.

With a drop of 10 to 15 cents, hogs touched about their lowest figure in years. Bulk of sales was around \$3.10 to \$3.20, with top fat hogs \$3.20.

Sheep receipts were heavy and trade was dull, with prices weak to lower. Spring lambs were quoted at \$6 to \$6.75, feeding lambs \$3.50 to \$4.50, and yearlings \$3.50 to \$4.50.

FROM LONG BEACH  
Mrs. A. E. Waymire and daughter, Barbara, arrived Monday from Long Beach to make their home here with their husband and father, who is employed at Penney's store.

Bill Beatty, bridge carpenter in the B & E, who has been in the hospital at Cedar City and was to have come home Monday, had to return to the hospital to undergo another operation. It is hoped that Mr. Beatty will soon be with us again.

Train No. 22 came into Las Vegas somewhat late Monday, owing to an unavoidable accident to engine 7869. Engines have their troubles as well as persons; that is why railroads have shops and roundhouses—engine hospitals.

Engineer Sam Wengert is now on the fireman side of the engine, having been bumped off the engineer job. He immediately bumped Fireman Hilo off the passenger run and Hilo gets in and bumps Barrow. It's got so a fellow just can't stay on a job; some other guy always bumps in.
