OUR DEMOCRATIC FRIENDS

THE AGE this morning extends the hearty welcome of the people of Las Vegas, Republicans as well as Democrats, to the members of the Democratic state convention meeting here today.

Some of you are making your first visit to Las Vegas. We sincerely hope that you will not be left in a state of unhappy disappointment by your experiences here. We want to get acquainted with you and help you to know Las Vegas.

Others of you have been here before and already have some ties of friendship and interest with us. With such we are glad to renew our friendships.

Just now in Las Vegas we are all hosts, ready, we hope, to extend the hand of friendship to all of you.

Later in the season we may read each other limb from limb, verbally at least, but now we forget our party lines and join together in a grand party.

Someone said that the chief difference between the two parties is that the Republican points with pride while the Democrat views with alarm.

Reversing positions for the moment, we Republicans would view with alarm the possibility that anything be left undone to make your stay pleasant. And The Age hopes that you Democrats, reversing your traditional attitude on this occasion, may be moved to point with pride to the nifty little city of Las Vegas and remember with pleasure your state convention of 1932.

At any rate you can't deny that we are giving you a warm welcome. It was an even 100 degrees yesterday by the government thermometer and we hope to do a little better today, say 103 or thereabouts.

Which is nothing at all to what we expect to offer the American Legion boys June 9, 10 and 11. Anyhow, what's a few degrees between friends?

MARKETS AT A GLANCE

By OTTO E. STRUM (United Press Financial Writer)

NEW YORK, May 20. (U.P.)—News that the most powerful financial coalition since the famous Liberty loan committee of war-time days had been formed to help boost the country out of the business depression was greeted with rising prices on the New York stock exchange today, but the rally petered out as the session progressed.

While final prices were well off from the highs of the days, the close was no worse than irregular, market leaders being strongly supported throughout the session. In fact, American Can, Du Pont, Allied Chemical, Union Carbide, Westinghouse and a few others closed with gains of fractions to a point.

The disappointing weekly report of the federal reserve board served as a check on the selling that cut down the early gains.

It showed a sharp decline in the amount of government securities purchased by the federal reserve banks, a rise in circulation and a drop in gold holdings. Its main effect, however, was on the bond market, where United States government issues reacted substantially after advancing early on the overnight news from the federal reserve bank.

One of the most constructive developments of the day was a rise in Chicago wheat prices and the gain, unlike stocks, retained all the advance and closed more than a cent a bushel higher. J. I. Case and other "agricultural" stocks rose sharply in sympathy.

Steel, after running up to 29 1/2, sold off to 28 1/2, where it closed for a loss of 1/2 point. American Telephone dropped from a high of 97 1/2 to 96 1/2, and closed unchanged at 95 1/2. General Electric closed fractionally lower after an early rise of more than a point.

Oil stocks were again in demand but sold off under heavy pressure. Rails again were thrown for heavy losses, on the bond market. The cotton market advanced in quiet trading.

EVERYDAY MOVIES

MOPEY DICK AND THE DUKE

"Now if they'd only let people buy stock and not let anybody sell it, then the market would have to stay up."

MANHATTAN MIRRORS

NEW YORK, May 20. (U.P.)—The most important prophet to arrive in Manhattan since Krishnamurti (who decided after thinking it over for two years that he wasn't a prophet at all) is Shri Sadguru Meher Baba, the indu Messiah.

The Baba, a slender man with a pair of moustaches that would make Alfalfa Bill Murray retire biting his nails with envy, refused to "give a sign" today to one of the skeptical who called upon him.

"I shall perform miracles, when the time and situation demand," he said with dignity, "but not to satisfy idle curiosity."

When one said "He said," the phrase is not quite accurate. The Baba never talks. He issues written statements or, when less thought is required, he spells out the words by pointing out the letters in an alphabet.

The prophet sleeps only two hours a day, which puts him in training for really seeing New York.

Sidney Franklin (born Frumkin), the "Spanish" bullfighter, has picked up a good piece of change in and around New York since he came home a few months ago to become a New York hero.

The torero put on a suit of American clothes today. He had to. He has leaved all his fighting outfits, his sword, his cap, capes, stockings, hats and gold bullion to a department store, and he has designed, patterned after his own fighting shirt, a blouse for women which the shop is now selling by thousands—with a royalty on each blouse.

Ed Wynn gets the highest radio salary (from week to week) of any performer. The \$5,900 he makes each seven days has enabled him to buy an automobile—a modest one. But he has been so bothered by hitch-hikers in his trips to the country that thereafter when he leaves Manhattan, he hangs a sign "taxi" from the radiator cap. Thus he is never bothered.

Lloyd Jennings was awarded the contract for the drilling of a new well on the cemetery property, by the board of city commissioners, which met yesterday afternoon. The bid submitted by Jennings was six dollars lower than that of his nearest competitor. His estimate was 94c per foot, regardless of depth, and 95c per foot for piping. Work will be started immediately and it is expected that drilling operations will be completed within the next thirty days.

The next meeting of the commissioners will be held next Friday, May 27. At that time reports on the progress of sewer construction will be made.
