CHANNEL MARKERS

**

In the earlier days of this country, spending the family budget used to be a hazardous business. It was only by harsh experience that a householder learned to steer clear of bad bargains and come into port with his money's worth.

There were snags and shoals aplenty. Inferior goods and unscrupulous merchandising methods made the channel dangerous. "Let the buyer beware" was an accepted slogan of trade.

Fortunately for consumers, this condition has wholly changed in more recent years. The channel has been charted. Today advertised, trade-marked goods of known value are for sale in every city and hamlet. The buyer knows he can trust such products. He reads the advertisements in his paper, chooses the commodities he needs, and makes his purchases with the knowledge that he will get full value for his outlay.

The advertising columns of this newspaper point the way to satisfaction. If you make it a habit to read them daily you will save money, and save time.

Advertising is your guide to safe buying
