The right BLEND.

... "welded" together. That's the Chesterfield Cross-Blend...an important reason

It isn't just taking the tobaccos and mixing them hit-or-miss.

The Chesterfield Cross-Blend makes one type or one variety of tobacco partake of the qualities of another. It "welds" together all that is best in each variety.

It's a balanced blend in the truest sense . . . giving you what really amounts to a new kind of tobacco . . . Chesterfield tobacco . . . milder, more fragrant, better-tasting.
