LAS VEGAS, CLARK COUNTY, NEVADA, FRIDAY, AUGUST 24, 1934

No. 34

Key Pittman Chief Speaker At Study Club

Notable and significant demonstration of support for Senator Key Pittman was the meeting of the Democratic Women's Study Club at the Court House, Tuesday evening.

The court room was well filled by members of the club. Mrs. T. M. Carroll presiding with efficiency.

Senator Pittman was the principal speaker. He devoted a considerable portion of his address to reviewing the accomplishments of the administration in Washington, and gave a concise account of the great advantages enjoyed by the western mining states through the workings of the provisions of the Pittman Silver bill.

Senator Pittman also briefly reviewed the development and enactment of the legislation under which the Boulder Canyon Dam project is being constructed, and called attention with emphasis to the tremendous industrial development which will come to the state of Nevada through the use of cheap power from the dam.

The hearty applause with which the address of Senator Pittman was received by the women of Las Vegas is assurance of their loyal support at the polls.

Gray Mashburn, candidate for the nomination as attorney general of the state, said it was his ambition to speak to the state as Senator Pittman does to the nation and the world. He described the attorney general as the official of the state whose duty it is to give legal advice to the other state officials, and not to prosecute criminals.

Maurice Sullivan, former lieutenant governor, spoke in behalf of his candidacy for the nomination for governor. He first gave an interesting but brief, history of his own life and political activities.

Judge Edwards, candidate for justice of the district court, closing by stating his ambition to further serve the people of his state as justice of the supreme court.

Following the formal addresses, Mrs. Carroll introduced several prominent personages included in the audience, including Mrs. Key Pittman, Mrs. Charles Richards, Mrs. E. W. Nungesser, democratic national committeewoman, and others.

Rotary Club Holds Meet

Guests at Thursday's meeting of Las Vegas Rotary Club included Rotarians Jos. J. Milne and J. B. Chase, of St. George, Utah, and Judge Edwards of Ely.

The meeting was devoted principally to discussing the question of continuing the support of certain helpful projects to which the club has contributed for some years past. The membership recommended to the board of directors that financial assistance to the two principal

THE PLAIN TRUTH

Now that only a little over a week remains before the primary election we find that the political sport of mud-slinging is getting nicely started. With the election day drawing near, some of the candidates for the democratic nomination for governor seem to think that they can make almost any kind of a statement about their opponents and that the voters won't find out that they are untrue—until after they have voted. This is not so.

We have six men in this state running for the democratic nomination for governor—and all of these men have their good qualities—some more pronounced than others. We cannot agree with the statements made in the last issue of the "Nevada Democrat," a paper published by Archie Grant, seeking to cast discredit upon his opponents. Mr. Grant's opponents—each and every one of them, have lived in Nevada from 15 to 25 years longer than he has. Mr. Harmon, Grant's opponent in the southern part of the state, has been a resident of Las Vegas for nearly thirty years and, while the "Age" does not favor his election, we believe that the pastime of mud-slinging is entirely uncalled for. Should we as a newspaper desire to delve into the merits of the majority of the democratic candidates, including Mr. Grant, it would not look well in print—for those candidates.

The TRUTH of the gubernatorial race is that the fight is centered now between John A. Cooper of Reno and Harley A. Harmon of Las Vegas, with Mr. Grant in third place.

Such statements published by Mr. Grant as that "John A. Cooper made the statement that the control of the state government should remain in his home city and that Clark county has no right to put out a claimant to the office of governor," is an untruth—Mr. Cooper never made any such statement. Mr. Cooper DID say that he believed that as the election of Fred S. Alward for lieutenant governor was conceded by all that the election of a governor should be from the north. Mr. Cooper is a great admirer of Mr. Alward and believes that he would render the state an honest and faithful service.

The statement made by Mr. Grant's paper that Mr. Cooper is associated with the old Wingfield machine is also false. Mr. Cooper lost over one hundred thousand dollars in the closed banks of Nevada and probably today has less financial support than any other of the candidates.

Mr. Cooper is FREE and FAIR—he is free from any political affiliation or machine—he has been fair in that he has not made ONE statement against the character or honesty of his opponents. He is making his own campaign and promises a CLEAN BUSINESS ADMINISTRATION if elected.

A clean political fight is an asset to any candidate. Mud-slinging only acts as a boomerang—to the one doing the "slinging."

Bathing Beauty Contest Closes September First

Registration for the bathing beauty contest to be held at Lorenzi Lake park September 2, will close Saturday, September 1, according to D. G. Lorenzi.

All girls from Boulder City, Las Vegas and Clark county between the ages of 18 and 25 are invited to register at Lorenzi Lake park or at the Age office.

The winner will receive a \$50.00 cash prize and will be queen of the Labor Day celebration.

All entrants will meet in the Apache hotel lobby at 2:30 Sunday afternoon, September 2, and will be taken to the park on a special float accompanied by the band.

rehabilitation measures in which the club has long been interested be continued.

Rotarians Chase and Milne of St. George, are hoping to bring about a tri-state meeting of Rotarians to be held at Beaver Dam Lodge, Arizona, in the near future. The St. George, Cedar City, Kingman, Needles and possibly Tonopah and Ely clubs would send delegations to such meeting.

Water Company Asks For New Rate Schedule

The Public Service Commission of Nevada is in receipt of an application from the Las Vegas Land and Water Company, for authority to amend the schedule of water rates for refrigerating or ice machines and water used for roof cooling through sprinkler systems, both schedules to become effective October 1, 1934.

The present rate for cooling water for refrigerator or ice machines are as follows:

	Rate
1/2 ton machine or less	\$2.00
Between 1/2 and 1 ton machine	2.50
For each ton over 1 ton	1.00

The proposed rates for this class of service are as follows:

(a) Where water after passing through the machine is collected, re-cooled and re-used:

	Rate per Month
1/2 ton machine or less	\$2.00
Between 1/2 and 1 ton	2.50
For each ton over 1 ton	1.00

(b) Where water after passing through machine is discharged into sewer or cesspool or otherwise wasted, or is not collected, re-cool-

LABOR BACKS KEY PITTMAN

In its issue of Tuesday, July 10, 1934, "Labor," a national weekly newspaper, owned by the Associated Recognized Standard Railroad Labor Organizations and their official Washington publication, endorsed the candidacies of twenty aspirants of nineteen states of the Union, including Senator Key Pittman of Nevada, for election or reelection to seats in the United States Senate.

The endorsement of Senator Pittman, exactly as it appeared in the publication referred to, follows:

"Senator Key Pittman, Democrat, Nevada

—The Railroad Labor Organizations have always backed Pittman, and he has never failed to stand by them when they needed a friend. He has been in the Senate for 22 years, and is one of the conspicuous leaders of that body, being president pro tem and chairman of the Committee on Foreign Relations."

Under a heading of "Nevada Members, Please Note," the following, part of an article by Arthur J. Lovell, vice-president and national legislative representative of the Brotherhood of Locomotive Firemen and Enginemen, appears in the current (August, 1934) issue of the official magazine of that organization.

"Our members in Nevada have an opportunity in the primary, September 4, and in the regular election in November, to show their appreciation of the fine work which has been done in the United States Senate for more than twenty years by the Honorable Key Pittman of their state.

"Our brotherhood is supporting Senator Pittman because we have found him absolutely dependable, always working on the side of the people for righteous legislation. His record for ability, integrity, and impartiality is an enviable one.

"Senator Pittman can be depended upon to continue to defend the interests of the plain people and fight for their rights. He richly merits the support of every voter in Nevada, and we trust that all our members, their families and friends, as well as all other working men and women in that state will go to the polls and vote, both at the primary on September 4, and in the election in November, for our good friend, Key Pittman."

ed and re-used.

1/2 ton machine	\$10.00
Between 1/2 and 1 ton machine	15.00
Between 1 and 2 ton machine	25.00
For each ton over 2 tons	5.00

At the present time there is no rate in effect for roof cooling by sprinkler systems. The proposed rate is as follows:

For each ton over 2 tons	5.00 month.
--------------------------	-------------

Parties desiring to protest this application should file their protest with the commission at Carson City, Nevada, prior to September 5, 1934.
