

**TO THE DEMOCRATIC VOTERS
OF CLARK COUNTY**

Because of very serious illness in my family it will be impossible for me to leave the bedside of those afflicted, and make any personal contact with you before the primary election. Therefore, I am taking this means of notifying my many friends and active supporters that I will be unable to see them before then, but I am still interested and think, through their support, I will receive the nomination for County Commissioner from the Northern district next Tuesday.

Also, I herewith submit a brief outline of some of the principles for which I stand and the platform upon which I expect to base my action while in office. To those who are not personally acquainted with me, or with whom I have not had the privilege of discussing these important matters, I will state: I was born and raised in the Virgin Valley. I am 46 years old and during all these years I have been active in helping to build Clark County to what it now is. I have had considerable business experience and am at the present engaged in stock raising, farming, and general merchandising. I am raising a family of six boys. After gaining an education they expect to locate permanently in Clark County, so had I not naturally been so interested in the development of this section, personal interest would compel me to whole-heartedly support any program for the betterment of conditions educationally, socially and economically.

For a number of years I have been a representative of the democratic committee.

I stand for, first, better schools through liberal financial support and loyal cooperation between family and school.

Second, a continued program for better roads — not only our state highway lines, but also for a perfect hookup with branch lines reaching into the most remote parts of our county. These better means of transportation bring us nearer together and help us to enjoy a broader social contact, and thus a higher social life. This will also make possible and promote a much larger tourist trade to our wonderful natural attractions.

Third, the full benefit of Clark County resources for Clark County. That includes, especially, Boulder Dam benefits as far as we are entitled to them. Also, that our mines, mills, highways and schools employ local labor as much as is practical.

Fourth, the necessary survey and development of our natural resources such as minerals and valuable non-metallic deposits, and our scenic wonderlands.

Fifth, the development of agriculture, our basic industry, in Clark County by proper conservation and study of our water and land facilities.

If elected, I pledge to fully cooperate with all existing agencies and officials, either county, State or National, for the betterment of the mentioned conditions, or any other within the scope of my office, and I pledge myself to exert every resource at my command to give you honest, clean, impartial and businesslike service. With a careful, conservative policy in all issues involving public welfare or finances.

ALFRED FREHNER
Candidate for County
Commissioner

VETERANS—

Restore benefits immediately.
Repay our obligation to them generously.
Pay adjusted service certificates now.

LABOR—

Train limit bill.
Shorten Hours to Create More Jobs.
Unemployment insurance.
Abolish child labor absolutely.

BOULDER POWER—

Sell Boulder power at cost to Nevada industries. Power lines constructed by Federal government. Greatest good will come from creating taxable new property and new, large payrolls. These will bring prosperity to labor, business, livestock and agriculture in Nevada. Thousands will be employed.
