\$16,000 GOLD ORE FOUND IN LEASE

Three and one-half feet of ore said to assay \$462 to the ton and a small streak which it is said assayed over 16,000 to the ton are claimed as a result of leasing operations on property of the Goldfield Consolidated Mines Company by Jack Harris, who has been operating in Goldfield since last April says the Goldfield News.

Harris is said to be backed by ample capital, and has five leases on Goldfield Consolidated ground. The small streak of \$16,090 ore was uncovered on the Wedge.

Seventeen local experienced miners the employed on the leases, and this number is soon to be increased. Some of the men employed are engaged in retimbering the mine workings, while others are opening up ground. Harris pays his men weekly.

Representatives of the Goldfield Consolidated have visited Goldfield six months, and it was reported refrom time to time during the last cently that a number of additional leases are to be given to experienced mining men. — Tonopah Times.
