## NEVADA INVENTOR WILL SAVE VALUES WITH NEW HOOK-UP

LOVELOCK — W. H. Harris has added another invention to his long list of original machines by joining an ore pulverizer and concentrator to one of his famed dry washers for the recovery of gold from finely ground quartz ore. The assembly is expected to work out well and result in its adoption on a wide scale.

The whole unit is built on a frame of 4x4 timbers, four feet wide and six feet long and is carried on a trailer. It was made for Canfield of Winnemucca, who has successfully used one of the Harris dry washers on finely ground ore over a period of two years. Propulsion is from a small gasoline engine and three speeds are obtained from a cone pulley. Harris plans to take the outfit to ore dumps he has sampled and work them in place of placer.

## FIRST PINE NUTS SHIPPED

Approximately 1,000 pounds of pine nuts, the first to pass through Mina, were shipped out on the train early last week. The nuts were gathered near Mt. Montgomery and it was noted that they were very large in comparison to the general run. Mina Indians, who for the last two years have gathered their crop from the nearby hills at Pepper Springs and in Fish Lake valley, are seeking new territory as the fields which produced so abundantly last season and the year before are barren this fall. Pine nut time is vacation time for the Indians, and although necessary to travel long distances the handicap is not allowed to interfere with this form of recreation.—Humboldt Star.

ADVERTISE IN THE AGE  
IT PAYS

**Why  
Liquid Laxatives  
are Back in Favor**

The public is fast returning to the use of liquid laxatives. People have learned that the right dose of a properly prepared liquid laxative will bring a more natural movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is a natural laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It gently helps the average person's constipated bowels until nature restores their regularity.

You can always get Dr. Caldwell's Syrup Pepsin at any drug store, ready for use.

## HEAVY RAIN AND FIRST SNOW COME TOGETHER

Parched hills and valleys of this county were whitened by the first snow of the season last Monday, when an estimated three inches fell in Ely and more or less than that amount was spread over other sections.

The fall was especially beneficial in that it followed a soaking rain that fell late Saturday, the combined sources putting considerable moisture in the ground.

The storm was general in extent, a light fall of snow having been reported from Salt Lake City, with a heavier fall westward toward the Nevada line.

From Reno, it was reported that 25 persons were left stranded in the nearby Sierras, mainly deer hunters, when the storm reached heavy proportions in the Downieville and Hell Hole areas.

At Downieville a miner, Harry Allen, was found dead of exhaustion and exposure after he had been caught in the storm.—Ely Record.

## JACK POT MINE AT WONDER IS BASIS OF A NEW DEAL

FALLON—Purchase of the old Jack Pot mine at Wonder is under consideration by Dr. Edward Extromer and associates of California, according to J. P. McGlynn, who with Judge J. A. Sanders took over the property early this year on a band and lease. Money is said to have been raised for the purchase.

Meanwhile developments at the property are being continued by McGlynn, who has explored the old shaft down to 400 feet and has reopened old and opened up new ore bodies showing values from \$19 to \$300 in silver and gold.

## SNOW CLOSES ROADS

Slippery roads confronted travelers heading over the Sierra Tuesday, but the main highways were open. Although the California highway patrolmen said they would not enforce the use of chains, they advised that the roads are icy in many places. The four high passes over the mountains are closed, with little likelihood that they will be opened again this season. Tioga pass, into Yosemite valley, and the other passes, Kit Carson, Sonora and Ebbetts, were blocked by snow Sunday, the Nevada division of the California State Automobile association announced.—Humboldt Star.

## SHEEP SOLD BY RECEIVER

Judge James Dysart in the district court in Elko Monday afternoon confirmed the sale of 1,681 sheep for \$3,584.21, which had been made by the receiver, W. A. Reincken, who had been placed in charge of the John Leland Hylton ranch when it was taken over by the Henderson bank some weeks ago. The sheep were sold to private parties and included among them were 981 old ewes which brought \$1.30 each. In addition to the above the receiver has sold the cattle for \$6,070 but the court was not asked to confirm this sale at the time.—Humboldt Star.

## NEW SCHOOL TEACHER

Miss Elizabeth Brownfield, of Montello of Elko county, is to be the new fifth grade teacher at the grammar school.

## 5,000 DEER TAGS AWAIT SALE TO NEV. NIMRODS

Deer tags to the number of 5,000 were distributed this week by the Nevada fish and game commission to the various county clerks in the state, and now are on sale in stores and other places.

Use of the tags will be as in former years. They are perforated and one end is a mailable postcard addressed to the state fish and game commission. One portion must be fastened to the horns of the deer killed immediately after it is shot, and the other then is mailed to the commission for its records. The name

of the hunter, locale of the kill, number of points, date, etc., are sent out on each portion.

Tags cost \$1 and are in addition to the regular hunting license, the latter permitting only birds and rabbit shooting in this state.

Naturally, the tags don't guarantee that the hunter will bag a deer—last year 2,251 tags were sold and 443 bucks were reported taken, or roughly five-to-one against the hunter being successful.—Ely Record.
