

# NEVADA'S PROGRESS IS ON TRIAL!

The Verdict will be Rendered on November 6... The Question Is...

## Progressiveness vs Ultra-Conservatism

With PROGRESSIVE Governor Morley Griswold in the Governor's chair for the next four years, Nevada will continue in its PROGRESSIVENESS.

### MINING

PROGRESS in mining is noted. Silver camps that have been dead for years are being reborn. Low-grade gold properties, which in the past have been unprofitable to operate, are being reopened and developed for milling.

### BOULDER DAM POWER

PROGRESSIVE Griswold will see to it that Nevada uses its power from Boulder Dam. Cheap power will mean opening of many mining properties throughout the state, both metallic and non-metallic. It will also mean the establishment of many factories in the state.

### LABOR

PROGRESSIVE Griswold advocates and will work for many liberal rights for the laboring man. He recognizes the right of labor to organize and to bargain collectively. He stands for the old age pension (F.O.E. plan), unemployment insurance and an amendment on child labor.

### TRAIN LIMIT BILL

PROGRESSIVE Griswold has pledged his signature and full support of a 70-car limit bill.

### SCHOOLS

PROGRESSIVE Griswold will demand a sound financial program for the schools of the state. He will answer the problem of taxation for schools. Adequate state support is insured, so that the high efficiency of the state schools will be promoted.

### LIVESTOCK

PROGRESSIVE Griswold will lend his utmost support to the rebirth of the livestock industry. He will see to it that this industry is rehabilitated and stock is placed back on the ranges.

### RELIEF

PROGRESSIVE Griswold will continue his battle for federal relief for the unemployed and the rancher. He is in accord with President Roosevelt's PROGRESSIVE recovery policies.

### TAXES

PROGRESSIVE Griswold will continue his fight for equitable taxation for all classes of taxpayers, big or little.

Thursday Night  
November 1

9:30 p.m. -- 10:30 p.m.  
(Pacific Standard Time)

Prominent Speakers  
from

KOH — Reno

Every Monday

Wednesday

Friday Evening

NEVADA is the last outpost of Western civilization and its founders never intended that it be ULTRA-CONSERVATIVE. Nevada has repudiated every ULTRA-CONSERVATIVE Presidential nominee and favored his progressive opponent.

### MINING

ULTRA-CONSERVATIVE Kirman naturally holds the same view in regard to mining as the Wall Street bankers,—open opposition to increased prices for gold and silver.

### BOULDER DAM POWER

An ULTRA-CONSERVATIVE Nevada Administration would certainly oppose any plans of having the state go into the power business and distribute power from Nevada's 16 per cent allotment. ULTRA-CONSERVATIVES are opposed to state ownership of power.

### HIGHWAYS

ULTRA-CONSERVATIVE Kirman, under his program would have to practically eliminate the State's extensive highway program. New highways would not be built and already constructed highways would not be maintained.

### SCHOOLS

An ULTRA-CONSERVATIVE would impair our splendid educational system and our educational program could not go forward.

### INSTITUTIONS

ULTRA-CONSERVATIVE Kirman would naturally curtail expenditures of our State Orphan's Home and the State's Insane Asylum. Certainly these unfortunates cannot be asked to suffer any further misery. It would also impair our penal institutions.

### LABOR-WAGES

An ULTRA-CONSERVATIVE would naturally insist on a cut in salaries and wages in order to carry out such a program. This would mean reduced earning and spending power and also increase numbers of unemployed.

### TRAIN BILL

ULTRA-CONSERVATIVE Kirman in his addresses uses weasel words on the train limit question. He says, "Reasonable degree" train length. What does that mean?

### TAXES

An ULTRA-CONSERVATIVE naturally favors large corporations. If the railroads and power companies elect a "favorable" governor it will increase taxes for all other classes of taxpayers.

### RELIEF

Eighty-three per cent of Nevada's citizens favor Roosevelt's relief programs, according to a recent Literary Digest Poll. ULTRA-CONSERVATIVE Kirman has branded this program as an attempt to Russianize the United States.
