RETTER WATER SUPPLY HELPS NEVADA PROPERTY

Recent reports from Round Mountain are that an increase in the available water supply has enabled the Nevada Porphyry Gold in that district to expand its operations. Thirty additional men have been employed.

A 200-ton cyanide mill is running three shifts with two shifts employed in the mine. The company erecently completed its new gravel washing plant, designed to handle about 1000 yards per day.

GOOD ORE VALUES AT GOLDEN CYCLE SPEED UP WORK

The Golden Cycle group of claims located about two miles west of Rhyolite adjoining the Denver mine, is showing good ore values on a large scale.

A camp is being erected on the grounds and the road to the mine will shortly be completed. Ore bins will be set up and the mill will be on a production basis in about 60 days it was announced.

The property is owned by A. J. McCormick, Glenn St. Peters and Paul McCormick.

The Gold Ace is located near Beatty is working 30 men and the mill is operating three shifts. The Denver mine has several leasers who are getting good ore. This mine has a 10-stamp mill with plenty of water piped in seven miles from Indian Springs. -Tonopah Times.

STATE BUREAU OF MINES . HELD AID TO OBTAIN LOANS

John A. Fulton, director of the Mackay school of mines at Reno, was in Tonopah today conferring with mining interests on reestablishment of the Nevada bureau of mines.

Fulton said the bureau has investigated some \$15,000 in unfinished geological surveys which if finished will furnish a complete and correct line of data for mining interests to obtain loans from the Reconstruction Finance Corporation.

The plan to rehabilitate the state bureau is dependent upon assistance from the United States treasury and the U.S. geological survēy.
