Vegas Football

Thanksgiving Day will be the date of the "big" football game of the season so far as Las Vegas is concerned, because on that day the so-far unbeaten team of Las Vegas High School will meet the tough boys from Sparks.

The Vegas "Wildcats" have an unbroken series of thirty-four games won and the Sparks boys have defeated everything in the state so far except the Wildcats whom they will tackle Thanksgiving Day.

The Vegas boys have won through the combination of excellent coaching on the part of Doug Dishel, and hard, conscientious work on the part of every member of the team. In many ways it has been a hard, relentless grind for the young fellows and they are entitled to all the encouragement that a big and enthusiastic crowd at the game can give.

All businessmen and all taxpayers of Las Vegas should remember that the Las Vegas football team is much more than a lot of boys playing a game. It is a community asset of no small proportions and has many times over justified its cost. It not only advertises Las Vegas as a live and energetic city, but week after week it is drawing to us a group of young men who are the cream of the vigorous manhood of this inter-mountain country and whose good opinion of our city is beyond price.

Tourist Business

Many people have wondered what Las Vegas will do for business between the time work on the Boulder Dam project is completed and the date when industries shall begin the construction of great plants to utilize the very cheap power available to this region.

The answer is obvious—cater to the tourist business. Because of the rare combination of advantages of paved highways and the most interesting group of scenic attractions of which Las Vegas is the center and the natural base of operations, this region, is destined to be the Mecca to which countless thousands of people shall come for sightseeing, recreation and study.

It is within our power to make Las Vegas the most attractive playground in America. Our features of interest are of such a nature that they will continue to grow in interest as knowledge of them spreads.

We may, if we will, make Las Vegas the outstanding winter resort of the west, for seven or eight months in the year. Great resort hotels will come to us when capitalists become aware of the opportunities and those things which make Palm Springs, Santa Barbara, Phoenix, Miami and such resorts attractive to the wealthy will be created.

If we are to disregard entirely the industrial future of this region, we still may anticipate a growth and prosperity greater than any we yet have enjoyed.

It will be more than a year before sufficient power units are completed at Hoover Dam to make power available here. In the meantime we can, fortunately, devote our energies to encouraging our tourist business.

DIVORCE SUITS
