SAVE

DEFINITELY

SO MANY people make the mistake of saving without a *Definite* objective. They lack the incentive to continue their laudable plan of saving.

Make it a point to set a goal; either of a fixed amount to be saved within a given time, or plan some future purchase that will necessitate the saving of a fixed amount.

SENATOR PITTMAN TAKES ACTION FOR NEVADA MINING

TONOPAH — Senator Key Pittman joined the parade of investors to Nevada's mining possibilities when he announced here that he will become a mine operator in this district. Not only does the senator intend investing his own funds and those of associate investors in Tonopah mining, but he declared:

Upon my return to Washington, I shall put forth every effort for the immediate granting of \$1,250,000 loan for the immediate opening of the Tonopah Extension mine."

—Denver Mining Record.

HARTFORD MINING INSTALLS NEW MILL

The new 50-75 ton cyanide plant of the Hartford Mining Company, located between Virginia City and Silver City, Nevada, is giving excellent results since it was put into production on August 1.

The mill was completely furnished and installed by the Western Machinery Company whose head office is at 760 Folsom Street, San Francisco, California, with branch offices and warehouses in Sacramento, Los Angeles, Phoenix and Salt Lake City.

The Hartford Mining Company is a Nevada corporation; George Drysdale of Virginia City, is general manager and his associates are Edward Gunderson and Harold Hansen of San Francisco.

The mill consists of primary and secondary grinding units, agitators, thickeners, filters, all electrically and individually driven, and is regarded as one of the most up-to-date and efficient plants of its size in the country.

Ray Marcellus is plant designer and construction engineer for the Western Machinery Company.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right dose of a liquid laxative brings a more natural movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings ~~safe~~ relief from constipation. It gently helps the average person's bowels until nature restores them to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child.
