

American Legion Head Visits Dam

Harry Colmery, national commander of the American Legion, accompanied by his wife, and Mr. and Mrs. E. Snapper Ingram and Earl LeCamp, arrived in Vegas shortly before noon Wednesday. They went to Boulder City to meet with the Legionnaires there and to view the dam, after which they returned to Las Vegas, Commander Colmery and his wife leaving for Salt Lake City by rail Thursday morning.

While the party was here the ladies were entertained by Depart-

ment President Effie Deadrich of the Legion Auxiliary, and Ruth Hazard, department secretary.

The principal feature of the entertainment was a banquet served at the Apache Hoel. The principal feature of the entertainment was a banquet served at the Apache Hoel.

The principal feature of the entertainment was a banquet served at the Apache Hoel.

Remember the old days when the bootlegger was one of the most important men in the community?

New Proposals Heard By Board

Election of a chairman was postponed by the board of county commissioners until the February meeting, after the first ballot resulted in a deadlock.

Commissioner Earl Davison and George Hanson proposed to make Commissioner Kenneth Earl chairman, provided he would take up his residence in this city. This appeared impossible, however, and the chairmanship now seems to hang between Commissioners Davison and Hanson.

George T. Hanson, the new member of the board, promptly presented a resolution designed to prevent employment in the county offices of married women whose husbands have jobs. This was one of the planks in the platform on which Mr. Hanson made his campaign. The matter is held under consideration. Another important policy pro-

posed by Mr. Hanson, is the enlargement of the county hospital and opening it to pay patients. This also is under consideration by the board.

Will Dedicate War Memorial

Joe Hufford has announced that plans for dedication of the new War Memorial building during the visit here of a party of American Legion members of Aqueduct Post, California, February 19 to 21.

Details of the ceremonies of dedication will be announced in a short time, Mr. Hufford states.

"I have been around here ten years, sir," said an employe to his boss, "doing three men's work for one man's pay, now I want a raise." "I can't give you that," replied the boss, "but if you'll tell me the names of the other two men, I'll fire them." —Exchange.

BED ROCK

GEOLOGISTS tell us that even bed-rock moves. But it shifts so gradually that it makes a safe, sure base for the largest structure. This bank, too, is moving with the times. But the movement is always gradual, along predetermined lines. Every succeeding move has merely served to further strengthen and consolidate its underlying stability. Each year finds this bank in even better position to serve its many clients and depositors.
