FEDERATION OF WOMEN'S CLUBS

Next week Las Vegas has the honor of entertaining the delegates to the annual convention of the State Federation of Women's Clubs. We welcome these leaders of our state and trust that their stay in Clark county will be one that they will long remember.

AIR TRAVEL

Just when the traveling public begins to get accustomed to travel by air, we have our nerves all upset by another major plane crash. During the past few months the loss of life in plane crashes has been appalling.

We wonder just when the officials of the country's air lines will come to the conclusion that they cannot beat the furry of "old man weather" and keep their ships grounded during storms. There is no need in the world—nor does it promote a feeling of faith and safety in the minds of the traveling public—to have air line officials gamble with the lives of their passengers. Almost every one of the recent air disasters was caused by a severe storm. Every life lost can be charged up to air officials for allowing their ships to face these hazards.

EVERYBODY SIGNING

"Have you signed our petition yet?" is a familiar term heard along Fremont street these days. With one petition "for" and another "against"—is causing a lot of comment. Just which one is "for" and which one is "against" we have not been able to find out—anyway everybody is signing both petitions so as to be on the safe side—if there is a safe side. If you have missed signing one or both, you had better get a hurry on before it is too late.

CITY ELECTION

Whenever we have a city election, or any election, for that matter, we hear all kinds of stories about how to run our city government. Some honest taxpayers believe that our city dads are a lot of horsethieves, while others believe that they are the last word in economy. The operation of any city government is a tough job—especially when you don't get paid for all the trouble you are put to.

Our present city government may have not done everything that we would like them to have done — but we believe that each and every member has acted to the best of his belief. There won't be any tears shed by the present two members of the board should they be defeated for re-election. Jim Downs and Herb Krause are both fine men and should receive a "big hand" for even consenting to serve on the city board.

ANOTHER STREAMLINER

The Union Pacific has announced that soon a new and greater "streamliner" will be in operation between Los Angeles and Chicago. The train features ideas that a few months ago would have been considered only a fantastic dream. The new "City of Los Angeles" will be a modern hotel on wheels and will far surpass in luxury anything yet offered to the traveling public.

What does a Bank do?

It Provides You With Complete Financial Service

YOU may never have had occasion to investigate more than one or two of the services a bank renders individuals. Perhaps your experience has gone no further than the savings department. If so, you would find in a discussion with the heads of the other departments many services which would benefit you.
