

500-Ton Mill For Golconda

WINNEMUCCA, Nev. — Charles Ogee, work superintendent for Dodge Construction Inc., has left for Kelly creek near Golconda, about 16 miles from here, to resume work at the Getchell mine where the company is excavating for a 500-ton mill to be erected on the property which is being developed by the George Wingfield-Noble Getchell interests.

The mill to be built will be one of the largest in Nevada and when it has been completed the Dodge Co. will be engaged, probably for several years, in power shovel mining operations on the property.

Plans for operation of what it is said may become among the largest gold mines in the world call for cutting down a whole mountain with power shovels to supply the 500 tons of ore daily which the mill will be able to handle. The ore will be handled in much the same way, it is said, as the copper ore in the Ruth pit near Ely.

Reports say the bulk of the ore will run around \$14 to \$16 a ton. Estimates are said to indicate that ore which runs as high as \$2 a ton can be profitably handled.

Getchell Mines has given its check for \$50,000 advance payment that assures a power line to Winnemucca and to the Getchell mine. The check was paid to the Sierra Pacific Power Co. of Reno. Already 32 carloads of materials have been ordered for the power line from Tungsten to Winnemucca and to the mine. It will be completed by August 10. The power company is financing the line from Tungsten to Winnemucca and the mine is paying for the cost of the line from Winnemucca to the mine.

LAS VEGAS WEATHER

Following are the maximum and minimum temperatures as registered by the thermometers of the U. S. Cooperative Weather Station in Las Vegas:

	Max.	Min.
April 23	75	42
April 24	84	49
April 25	88	45
April 26	89	42
April 27	69	45
April 28	68	41
April 29	76	46

ADMISSION

The statement of Chairman Eccles of the Federal Reserve Board that a balanced budget is a necessity if monetary inflation is to be avoided is important. There are other portions of Eccles' statement also deserving attention, and one of them is a hopeful sign. This is the admission that monkeying with the currency cannot accomplish everything.—Los Angeles Times.

Motorists should carry an extra fan belt and examine the old one frequently for wear or stretching, advises the emergency service department of the Automobile Club of Southern California.

Mrs. Guy Baker was hostess to her Pan Club Wednesday afternoon at her home on North Eighth street.

GRAND RESERVATION

(By J. E. Jones)

WASHINGTON, D. C. — The District of Columbia was originally ten miles square, but Virginia had a string on part of her gift—and pulled away her contributions of territory south of the Potomac. A tribe of Indians who gathered the first English scalps at Jamestown, Virginia, had original jurisdiction over what is now the capital, at Washington. There are more than half a million people inhabiting the District of Columbia, but none of them—not even the Negro descendants of slaves freed by Lincoln (comprising nearly 26 per cent of the population) have the right to vote on either national or municipal matters.

The kind of legislation handed out to the residents of Washington, District of Columbia, is evidenced by the protest of the Federation of Citizens who adopted a resolution by a unanimous vote condemning the nine tax bills in the House, which would raise \$9,000,000 more taxes than is needed to maintain the local government. A few days later a great outpouring of citizens of Washington gathered at a Sunday afternoon mass meeting to protest against the condition in the

National Capital by which thousands of destitute families were not included in the "relief" plans that have been extended to other sections of the United States.

It is true that Washington has beautiful public buildings, thousands of people working for the government, and nice, cute little cherry blossoms on those Japanese-parented trees. The Capital City has lots of things to be thankful for—but the residents resent the fact that they are disfranchised and with so little influence as citizens that they are high-hatted by the puffed-up politicians who maintain their residences in their states.

In order that the cops may make no serious errors, the Senators, Congressmen, high public officials, and the foreign diplomats, are given special kinds of automobile tags which save them from being arrested. Simple Citizen is the goat that sees the Judge.

Mrs. R. J. Stephens entertained members of her bridge club Wednesday afternoon at her home on Ogden street. The guests were Mesdames Hale B. Slavin, Lou Wottishak, Frank Garside, Jack Hemp-hill, Arden Lusch, Rose Stephens, James Squires, August Berning and the hostess, Mrs. Stephens.

Forshay Given Prison Term

Sam Forshay, who was charged with mistreating a five-year-old girl, pleaded guilty to the charge in district court Tuesday and was sentenced by Judge Orr to serve from one to ten years in the state prison at Carson City. Forshay had previously entered a plea of not guilty to the charge but later changed his plea to one of guilty.

A fashion note from Paris says that ladies' millinery has taken the military mode this spring. The hats we have seen follow the culinary mode—potato pancake.

A Washington report is that the new millionaire crop will be the largest in six years. Next thing you know Prof. Tugwell will be joining the select circle.

Make it a point to obtain one or more of the 1937 novelties for your garden. The All-American selections are especially outstanding this year.

Try a new one of the many different types of sweet corn.

If your garden tools were not oiled and put away in a dry place last fall, they will need attention now. Get them out to sharpen for ready use.

Poppy, larkspur and bachelor button seeds may go into the ground as soon as the frost is out.

Tomato seeds sown now in a box in the house will save you a considerable sum over the cost of buying the seedlings, and give you a better choice of variety.

Inspect your lawn for bare spots and reseed.

An asparagus bed is a luxury in any garden. Start one now, and you will have quantities of this delicious vegetable for years to come. Two year old roots are best.

Make plans for a year around garden, so that you may have fresh vegetables on the table from early spring to late fall, with a goodly stock left over for the winter.

Have your supply of plant food on hand for your first days in the garden. You will need it then as you will later.

If your order to the seedsman has not already gone forward, you had better send it immediately. Planting season is practically here.

Nothing makes a neater and more compact miniature hedge for edging than dwarf signata pumila marigolds.

An application of complete plant food is oftentimes the best remedy for ailing flowers.

You will need plenty of Golden Bantam sweet corn seed.

BULL ELK IS FAMILY PET

WHEN she tires of the piled-up peaks around her home and the radio fails to produce a good program, Mrs. L. A. Smith, wife of the Canadian National Railways' section foreman at Geikie station, in the heart of Jasper National Park, Alberta, can always call into the bush and hold conversation with "Beauty," her pet elk. For five years now Beauty has kept up his acquaintance with Mrs. Smith even though it is sometimes hard on the Smith larder. In addition to sundry vegetables and loaves of bread, this eight-year-old bull elk consumed two crates of apples this winter and spring. Those, Mrs. Smith explains, are his dessert. From November to May, Beauty is the Smith family pet. He then becomes a travelling man. "But," says Mrs. Smith, "he doesn't fail to come at my call when his playboy days are over. It will be his sixth anniversary with us next Fall."
