

# Nevada State News In Brief

## THOUSAND PLAY TOGETHER

Massed school bands from every portion of the state, numbering about one thousand musicians, gave a thrilling and impressive parade, followed by a concert, which closed the music festival in Winnemucca last Saturday.

## MOTORCYCLE CRASH FATAL

Lionel Walker, 21, was instantly killed, and Lyle Bradshaw, 19, received injuries which may result fatally, as the result of crowding into a rocky ledge by passing automobiles while riding a motorcycle on the Reno-Sacramento highway at a point between Rainbow Tavern and Cisco. Both young men were workers in the Sparks railroad shops.

Two unidentified automobiles passing each other on a curve forced the motorcycle off the road, according to Arnold Reed who was following on another machine and himself narrowly escaped being forced from the highway.

## NEW RENO RACE TRACK

A new sporting enterprise—midget automobile racing—will be launched in Reno next month, with speedway and grounds located at Lawton's Hot Springs, according to the Nevada State Journal.

"The Oasis" will be the name of the new resort, which will be part of the new western schedule of midget racing planned by the corporation which operates tracks in California.

More than \$75,000 will be spent in improving the buildings and ground it was stated by Sterling Price, president of the Motor Speedway Corporation.

## SOUTHERN PACIFIC FINED

Federal Judge Frank H. Norcross Saturday last imposed a fine of \$100 on the Southern Pacific Company for confining sheep in a freight car for more than 24 hours without water or feed.

The government claimed a carload of sheep was transported from Treptinos, Cal. to Sparks, Nevada, without water or feed, the trip requiring 28 hours and 19 minutes.

## TRUCKEE ISLAND FOUNTAINS

Work on the fountains being installed on the island in the Truckee river at Reno, between the Virginia and the Center street bridges, is nearing completion.

The central fountain was turned on the first time Saturday, and the other fountains will probably be completed this week.

The fountains will be located in the central rock cluster and will include a spray on the center rock and small water falls over the boulders surrounding it. Colored lights will play on the water when the fountains are in operation.

## PUSHING WORK ON NO. 93

Addressing the Ely Rotary Club last week, Division Highway Engineer C. C. Boyer stated that contracts would be let at Carson City

on May 7 for oiled gravel surfacing of 124.86 miles of Route 93. This would be made up of 30 miles on the highway west of Caliente, a stretch of 14.7 miles between Stone House and Pony Springs, and another stretch of a fraction over 70 miles on what is known as the Currie cutoff.

When the work is completed, said Mr. Boyer, approximately 90 per cent of Route 93 in the state of Nevada will be oil-surfaced highway. In response to a question, Mr. Boyer stated that in addition to the work on Route 93, thirty miles of the Tonopah highway will be oiled this summer. This work will start 14 miles beyond Callaway's ranch where the oiled portion of the highway now ends.

## ZINC PLANT AT KELLOGG, IDAHO, WILL BE ENLARGED

KELLOGG, Idaho.—The capacity of the huge electrolytic zinc plant will be further increased as one of the many major developments planned by northwest mining companies. Directors of Sullivan Mining Co., owning and operating the plant, are planning to increase the capacity either by 50 per cent or 100 per cent, according to a recent announcement by Stanley A. Easton, Hecla and Bunker Hill & Sullivan are joint owners of the Sullivan Mining Co. operating the Star mine and the electrolytic zinc plant. — Denver Mining Record.

# Drunk Driving Is Increasing

Potent peril to motor traffic is the rise in number of accidents involving drunks, warned the Automobile Club of Southern California safety bureau.

At least 617 of the 2837 fatal auto accidents in California in 1936, or about 21 per cent, killing 678 persons, involved drivers or pedestrians who had been drinking.

Intoxicated pedestrians have become as great a menace as drunken drivers, the figures showing that since 1929 the total of drivers who had been drinking prior to becoming involved in accidents has multiplied by more than four, while the number of drinking pedestrians has increased five times.

Pedestrians under the influence of liquor were involved in 1169 accidents, killing 211 and injuring 953 persons, during 1936.

Nearly 97 per cent of 14,887 persons haled into court in the state last year under various vehicle code provisions relating to drunken drivers were convicted, says the report. Of those convicted, 2045 received suspended sentences or probation, 4829 were sentenced to jails and road camps, and the remainder received fines.

**TESTED RECIPE**  
If the man of the house—the old dear!—is bringing an important friend home to dinner and you want a dessert which will climax your best efforts, just serve this parfait! And if you have some tall, slender parfait glasses, this is the time to produce them. But if you haven't, it's a notable dessert served in any dish!

### Parfait Mazarin

1 cup sugar; 1 cup water; 3 egg whites, stiffly beaten; 2 squares unsweetened chocolate, melted and cooled; 2 cups cream, whipped; 1 tablespoon vanilla.

Boil sugar and water until a small amount of syrup forms a soft ball in cold water, or spins a long thread when dropped from tip of spoon (238° F.). Pour syrup in fine stream over egg whites, beating constantly. Continue beating until mixture is cool. Fold in chocolate, cream, and vanilla. Turn into freezing trays of automatic refrigerator and let stand 3 to 4 hours. Or turn mixture into mold, filling it to overflowing; cover with waxed paper and press cover tightly down over paper. Pack in equal parts ice and salt 3 to 4 hours. Serve in parfait glasses and top with whipped cream. Makes 1½ quarts parfait.

# Where Do Authors Go In The Summertime?

**T**HE answer to that is easy! Why, they go fishing. And at least four of America's top-notch spinners of yarns plus one motion picture editor go as often as they can to Maligne Lake in Jasper National Park, Alberta, which they declare to be the greatest of all speckled trout waters. Nature provided the lake and Pennsylvania provided the trout. Herewith is a section of Maligne Lake and inset five noted gentlemen of letters who cast a fly as deftly as they fashion an idea. From left to right they are: Courtney Ryley Cooper; Corey Ford; Jack Eaton, editor of sporting motion pictures; Irvin S. Cobb and, in the center, Rex Beach, dean of sportsmen and weaver of tales of stirring outdoor adventures.
