

Distinguished Alumnus Award

PROVO, Utah. — Out of 25,000 former students of Brigham Young university, ten have been selected for the Distinguished Alumnus Award. They were picked by the alumni board of directors, whose job was made easier by the fact that ten more will be named each year from now on, for honors to be conferred at the alumni banquet in commencement.

This year's list which includes statesmen, jurists, scientists, teachers, and social workers, follows: Reed Smoot, '78, ex-senator and member of the L. D. S. Council of the Twelve; George Sutherland, '81, U. S. Supreme Court Justice; Amy Brown Lyman, '90, social worker; Professor Alice L. Reynolds, '90, literature and teaching; Dr. Harvey Fletcher, '07, New York, eminent physicist; Dr. Franklin S. Harris, '07, university president and agronomist; Dr. Arthur L. Beeley, '12, University of Utah sociologist; Dr. Vern O. Knudson, '15, University of California at Los Angeles, acoustics; and Philo T. Farnsworth, '25, television expert.

These ten will receive the awards at the annual alumni banquet on June 8, in the 61st commencement program, announces Dr. A. Rex Johnson, alumni secretary.

Kingman To Dam Road Bids Seen

Mohave County (Ariz.) Mirer

The welcome news that the the Kingman Boulder dam road would soon be completed was brought to Kingman Wednesday by B. J. Choiser of the attorney general's office and Jack D. Sheley of the right of day division of the Arizona state highway department, who were in town this week in the interest of securing a right of way for an additional project to be added to the present project under construction on the highway.

The additional project which is expected to include about 12 miles, will connect with the south end of the present project and bring the completed highway either to the foot of the mountain or to the road leading to the Katherine mine. Plans for this project are practically complete and are in the hands of the estimate division of the state highway department and it is expected that a notice to contractors calling for bids on this project will be published around the middle of next month.

While the matter is not definitely settled, Mr Sheley expressed himself as being practically assured that the money for the completion of the project across the mountain into Kingman will be set up in the budget for the next fiscal year after July 1st, and contracts will be let that will complete the paving of the highway from Kingman to Boulder dam within the next few months.

Surveys are already being made and preliminary work of preparation for such a project is now being given consideration in the state highway department.

New Mileage On State Highways

CARSON CITY, Nev., May 1.—Seven roads were added to the State Highway system by action of the thirty-eighth session of the Nevada legislature, according to the advance sheets of its enacted and approved laws, which became available today. These roads are located in Clark, Douglas, Lyon, Mineral, Nye, Pershing and White Pine and Lincoln counties. The new routes designated to become a part of the State Highway system are 2C, 38A, 52, 56, 57, 58 and 59.

The only addition to the mileage in Clark county is Route 52, which begins at a point near Owens on Nevada Route 5, thence by Lee's Canyon, Clark Canyon, Pahrump Ranch to the Nevada-California state line and adds 16.95 miles.

Of particular interest to Southern Nevada is the Beatty-Death Valley addition. Route 58 begins at Beatty on Nevada Route 5, courses southwesterly to the Nevada-California state line near Daylight Pass, a distance of 13 miles more or less with an addition of 14.55 miles.

Total mileage of these added routes to the state highway system, as provided for by the legislature which adjourned in March is 191.98 miles (according to officials of the State Department of Highways, and increases the total mileage in the state highway system in its present set-up to 5,177.15 miles.

Too often when some kind friend lets you "in on the ground floor" you end up in the ash can in the back yard.

TESTED RECIPE

—By Frances Lee Barton—

THE possessor of the most angelic disposition sometimes gets up in the morning with a noticeable grouch. Even Pollyanna had some grouching mornings. What our grandmothers picturesquely described as "getting out of bed on the wrong side." Ergo, breakfast is such an important meal! A simple and effective way of making pessimists optimists is a plateful of piping hot muffins:—

Muffins

2 cups sifted flour; 2 teaspoons double-acting baking powder; 2 tablespoons sugar; ½ teaspoon salt; 1 egg, well beaten; 1 cup milk; 4 tablespoons melted butter or other shortening.

Sift flour once, measure, add baking powder, sugar, and salt, and sift again. Combine egg, milk, and shortening, add to flour, beating only enough to dampen all flour. Bake in greased muffin pans in hot oven (425° F.) 25 minutes, or until done. Makes 12 muffins.

Currant Muffins. Add ½ cup currants to flour mixture.

Date Muffins. Add ½ cup finely cut dates to flour mixture.

Apricot Muffins. Add ½ cup dried apricots to flour mixture.

Nut Muffins. Add ½ cup broken nut meats to flour mixture.

THEY ALL WANT TO COME BACK TO SOUTHERN NEVADA

The Road Builder was on a holiday tour thru the middles west. In Hannibal, Mo., he broke a ring he had been wearing for 20 years. He went into a jewelry store to get the ring fixed. He handed the ring to the jeweler. The jeweler looked at it. It was an odd looking ring. A plain gold setting held a green-blue stone carved into a bullfrog. The jeweler swallowed hard and shook the ring under the Road Builder's nose.

"Where," demanded the jeweler, "where did you get this ring?"

"Out west. Can you put a new band on it?"

"I asked you where you got this ring. I want to know where you got this ring." The jeweler really wanted to know. He was excited about it.

"What's the idea? It's my ring. I didn't steal it."

The jeweler gurgled and vibrated and waved his arms. He said, "I don't care about that. Were you

ever in Rhyolite, Nevada?"

"Sure," said the Road Builder, "1905 'til 1907."

"My God!" said the jeweler. "I made this ring in Rhyolite in 1907. I made about 20 of these bullfrog rings. Say! Wasn't Rhyolite some town! For 20 years I've been trying to forget the times I had in Rhyolite. And I just get them all forgotten and settled down with a nice business and you have to come in here with one of my bullfrog rings! My God! Now I got to go back out to that country. I'll never be happy if I don't. — Goldfield News and Tribune.

STANLEYS TO BEVERLEY HILLS

Mrs. Leila Stanley, a former resident of Las Vegas, has resigned the position she held for the past two years with General Petroleum Co. in Los Angeles, and taken a position in Beverley Hills. With her son, Richard, she has removed her residence from Sierra Madre, where they lived with Mrs. Olive Elrich, to Beverley Hills.

Vegetables Appeal to a Man's Fancy

IN the spring a young man's fancy often turns to thoughts of a vegetable dinner instead of love. And that, whether he's 14 or 40. But he's critical and those vegetables must be cooked just right, be perfect in form with the appeal of natural flavor and good color.

Do you know how to prepare a main course of vegetables like that? Sure, you'll say; cook them in separate saucepans. Not at all, for that means extra work for you. There's an easy old way brought up to date, a modernized version of grandmother's method of cooking vegetables all in one pot. Today if your

range has a deep well cooker use it; or if not, a heavy aluminum kettle with a tight cover having a vent in it will serve the purpose.

Should the vegetables be small, make separate mounds of them on the bottom of the kettle; add one cup of boiling water. Cover, place over a top burner of your modern automatic gas range and when boiling begins, adjust the burner valve to simmer. Then the vegetables cook gently in steam and the flavor of each remains distinct. Believe it or not. Season the vegetables well and serve with parsley butter. They will tempt the capricious appetite of any man.
