

Pacific Synod To Meet Here

The Provincial Synod of the Pacific Province of the Episcopal church has selected Las Vegas as the site for its next annual conference, April, 1938, according to word received by Rev. James H. Terry, vicar of the Las Vegas and Boulder City churches, from Bishop Thomas Jenkins of the Diocese of Nevada, who was present at the recent conference in Seattle and was successful in his efforts to secure next year's conference for Las Vegas.

The 1938 conference will be largely attended it is predicted, because of the attractions of Boulder Dam and Lake Mead. The Pacific Province embraces the states of Oregon, Washington, California, New Mexico, Arizona, Nevada, Utah and Idaho, and Hawaiian Islands, the Philippines, China, Alaska and Japan. Each of those regions will send its bishops, clergy and lay delegates and

representatives of the branches of the Women's Auxiliaries.

It is anticipated that between six and eight hundred delegates will attend the sessions of the conference, which will be held in the War Memorial building. The conference bids fair to be one of the most important of the events scheduled for Las Vegas in 1938.

Lutherans Meet At Charleston

The first outdoor gathering of the season on Charleston Mountain will be held in the amphitheatre at Kyle Canyon camp on Sunday, May 23rd. This will be the Sunday morning services of the First Lutheran church and will convene at 11:00 o'clock a. m., according to Rev. E. A. Wessel, who will be in charge.

Preparations are being made to install water in the water system in this camp ground to accommodate the expected opening crowd, although to date the Forest Service workers have been unable to turn the water from Little Falls into the pipe due to the great amount of water coming over the falls. The valves which control the pipeline are located directly beneath the falls and none can stand the force of the water which is pouring over

the falls long enough to turn the valve. In other years this has not been a problem, but it is expected that by Sunday water will be available in the camp ground.

The public is invited to attend these opening services, according to Rev. Wessel, and he assures a welcome to those of other denominations who may care to attend.

The Forest Service will make special arrangements and preparations to care for religious gatherings in either the Kyle Canyon or Deer Creek amphitheatres during the summer. Those desiring these accommodations and reservations should phone the Kyle Canyon Ranger Station for such reservations as long before the meeting as possible to assure that other groups have not previously reserved the amphitheatres for use during that time.

GOVERNORS REGULATE SPEED ON AUTOMOBILES

The official report from the 200 CCC camps of the nation saying that governors on 20,000 trucks had decreased highway accidents 50 per cent is of the utmost importance.

This is the most exhaustive study ever made on the subject of the effect on highway accidents of curbing high speed. The fact that the study was made under United States army officials, who are in charge

of the CCC camps, stamps the report as absolutely authentic.

The study also exposes the ridiculousness of the claim that no reliable speed governor has been developed. With army thoroughness, camp officials, in cooperation with the manufacturers of governors, developed a speed-control device that has proven thoroughly satisfactory. No attempt was made to patent it, so this control under various trade names now is obtainable through thousands of retail outlets.

Furthermore, the experience of the camps demonstrates the folly of the assertion that high-speed engines are necessary to extricate drivers from dangerous situations. In the CCC camps, high speed involved drivers in trouble far more often than it assisted them in getting out of it.

Mrs. C. P. Squires is now in Ely visiting her daughter, Mrs. C. C. Boyer. She has been spending the past month with her son, Herbert Squires, in Winnemucca, and is planning to return to Vegas next week preparatory to going to Deer Creek for the summer.

WHILE Columbus is duly credited as the discoverer of North America, it was Jacques Cartier, valiant navigator of St. Malo, France who first set foot on the mainland of the North American continent. In April, 1534, forty-two years after Columbus had made his famous voyage of discovery, Jacques Cartier set sail from St. Malo with two small ships bearing a total crew of 61 men. On July 3, seeking refuge from a storm, he cast anchor in what is today the Bay of Gaspé near the tip of the Gaspé Peninsula in Quebec and landing on the shore, he took possession of the land in the name of the King of France. On a hill-top overlooking the bay he erected a cross. Three hundred years later a pageant re-enacted the historic scene and the cross, shown in the picture above, was placed on the shore of the bay as close as historical records permit, to the spot where the original cross was raised. The Bay of Gaspé was the scene of another world-famous event when in 1914 it sheltered the armada which conveyed the first Canadian Expeditionary Force to France. This was the largest expeditionary force ever to have crossed the Atlantic until the entrance of the United States into the World War.

To Quickly Ease Pains of Rheumatism

Bayer Tablets
Dissolve Almost
Instantly

In 2 seconds by stop watch, a genuine BAYER Aspirin tablet starts to disintegrate and go to work. Drop a Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass . . . happens in your stomach.

Ask Your Doctor About Genuine BAYER Aspirin

Any person who suffers from pains of rheumatism should know this:

Two genuine BAYER ASPIRIN tablets, taken with a full glass of water, will usually ease even severe rheumatic pains in a remarkably short time.

Ask your doctor about this. He will probably tell you there is nothing better. For real Bayer Aspirin tablets not only offer a potent analgesic (pain reliever), but start going to work almost instantly you take them. Note illustration of glass.

Try this simple way. You'll be surprised at how quickly pain eases. Get real Bayer Aspirin by asking for it by its full name, "Bayer Aspirin" at any drug store. Now, virtually one cent a tablet.
