

Old Age Pension Board Completed

Gertrude Goepfarth, secretary of the Reno Y. M. C. A., last Monday was appointed supervisor of the old-age pension program at a salary of \$3,000 a year. Frank King, also of Reno, was made assistant supervisor at \$2,400 per year; Herbert Clark, also of Reno, statistician, at \$2,400; Edith Haley, also of Reno, secretary to the supervisor, \$1,800 per year; Ruth Curtis, also of Reno, filer at \$120 per month.

Case workers at \$125 per month were appointed as follows:

Mrs. L. S. Pollock, Reno; Abbie Peck, Reno; Florence Perry, Reno; P. H. Dermody, Reno; Margaret Callahan, Ely; F. Bastian, Pioche; Scott Griswold, Elko; Thelma Cobb, Elko; Cora Stewart, Fallon; Hermine Giroux, Winnemucca; Margaret Lynch, Virginia City; Charles Sloan, Las Vegas; Francis Leavitt, Bunkerville; Velma Shotwell, Goldfield.

It will be observed that all the really worth-while positions were filled with residents of Reno, and the poorly paid jobs as "case workers" (which really do the bulk of the work) are parceled out among the other counties, two of them coming to Clark county.

It is interesting to note that the new appointees carry a total salary list of \$32,100 per year, not including the head of the state organization.

Official's estimate that approximately \$300,000 will be distributed this year, so we may reasonably expect the cost of state administration to be somewhere between fifteen and twenty per cent.

It is said that there are approximately 1,800 applications on file and that it will take more than two months to make the necessary investigations, although a few checks may be mailed out this first month.

AUSTRALIA RECEIVES FIRST CLIPPER MAIL

(Australian Press Bureau)

DARWIN, Australia — Australia's first consignment of the Clipper mail from the United States arrived in Darwin recently on the Qantas liner from Singapore.

According to advices received by the post office here the date of arrival coincides with the arrival of the first regular Australian air mail at San Francisco.

This week's American mail is not large, but recently both incoming and outgoing planes have been carrying as much as 970 pounds of English mail.

Pilots recall that when the service to England was inaugurated about two years ago experts forecast that with luck Qantas planes might be called upon to carry 300 pounds of English mail at the end of five years.

FORMER BOULDER CITY POSTMASTER PROBATED

CARSON CITY, July 10. —James I. Lee, former postmaster at Boulder City, Nev., today was granted probation for the remainder of a federal prison sentence by Judge Frank H. Norcross.

Lee was sent to the Ormsby county jail for a term of 18 months.

He was charged with misappropriation of government postal funds.

Storms Damaged Kingman System

(Mohave County, Ariz., Miner)
The electrical storms which passed over Kingman last night resulted in the burning out of two coils in the big turbine motor at the generating plant of the Citizens Utilities Company. It seems that two flashes, one immediately following the other, were responsible for the fusing of the coils. It is expected that a two day period of time will elapse before the turbine will be placed back in service.

In the meantime the big steam corlis engines of the plant have been put into commission and the flow of electrical power will continue as usual. The effectiveness of an efficient standby power source is demonstrated to power and light consumers throughout the county.

SERVICE CLEANERS ELECTED CHAMBER COMMERCE MEMBER

At Tuesday's meeting of Las Vegas Chamber of Commerce, Service Cleaners was elected to membership on the favorable report of the membership committee.

The application of Crow Brothers Radiator Shop was received and referred to the committee for report.

Why doesn't Secretary Wallace get a bill through congress giving the control of weather conditions to a five-man commission?

KEEPS ROAST PIPING HOT

Some of the charm of the old English chop-house is brought to the home by this new type of metal roaster. Not only does its use permit more space on the table for other food containers, but the heat retaining qualities of the roaster make it possible for the hostess to serve several helpings, while the food in it remains piping hot.
