

## Oldtimers Have A Happy Party

The outstanding social event of the week was the dinner of the Union Pacific-Boulder Dam-Mt. Charleston Old Timers Club Thursday evening at the U. P. dining room.

There were 125 members and guests seated at the tables which were presided over by President Earl Nungesser, of the Old Timers Club, and Mrs. Crosbie, president of the Ladies' Auxiliary.

Following the dinner the tables were removed and the dining room turned into an auditorium where an interesting program was given, following which there was a jolly dance in which many of the Old Timers joined.

President Nungesser, opening the entertainment program, explained that the U. P. Old Timers Club was a distinctive and exclusive organization, none being eligible for membership except such as had a record of 20 years or more efficient service with the Union Pacific.

Art Smith veteran engineer and oldest in the service, the first speaker on the program, told of pioneer days when the Los Angeles Terminal railroad was the first unit in what later became the Los Angeles-Salt Lake division of the Union Pacific. He enlivened his talk with several amusing anecdotes of early railroad-ing.

C. P. Squires, introduced by President Nungesser as one who had a part in bringing about the Boulder Dam project, spoke briefly. He recounted the loyal support which the Boulder Dam project had always received from both employees and officials of the railroad. He complimented the members of the Club on the success of their organization and the fine cooperation they have always shown toward community projects.

Eleanor and Audry Paulus played two delightful violin-piano duets.

Al Cahlan spoke briefly expressing his pleasure at being the guest of the Old Timers and predicting that the organization would be a real force in the community.

Two fine vocal solos were given by Mrs. Wait, with Mrs. Witt Olive accompanying on the piano.

Charles Mostyn Owens, who was in the railroad employment 57 years ago before many of those present were born, gave an interesting account of the "Rawhide Railroad" built into Walla Walla, Washington, by one Baker, and later sold to the Great Northern for \$40,000 per mile.

Trainmaster J. E. Mulick reported that there are now more than 100 members of the local organization which was started only 29 days ago.

George Taylor who had served as chairman of the general committee which arranged the banquet for 2,800 Old Timers at the Omaha Loyalty banquet at Omaha, in honor of President Jeffers, at which there were five or six thousand spectators, explained the objects of the organization as a purely social body. He suggested that five or six hundred members of the Old Timers clubs might come here at the time of the Helldorado celebration next April for a two days' stay providing sufficient accommodations were assured.

Mr. Jeffries gave two fine vocal solos.

President Nungesser introduced officers of the Old Timers Club as Bill German vice-president; Jack Davis, secretary, and Messrs. Witt Olive, M. M. Tenisch, W. E. Fitzgerald, M. E. Black and Jas. Measures.

Mrs. Crosbie, president of the Auxiliary, gave the names of her assisting officers as Mrs. Newton, vice-president; Mrs. Spence, secretary; Mrs. Olive, treasurer and general chairman of the entertainment committee, and the following board of governors: Mesdames Hansell, French, Santongue, Gifford, Fitzgerald and Butler.

Mrs. Gorge Taylor, president of the Los Angeles Auxiliary and Mrs. Freeman secretary, were introduced.

Mrs. Perle Brown sang a song written extemporaneously by Bro. McKeon.

Honorary members of the local Auxiliary were named as Mrs. Hazel Williams, Mrs. Fanatia, Mrs. Brockman, Mrs. Heaton, Mrs. Hitt, Mrs. Wilson, Mrs. McGovern, Mrs. Hewetson, Mrs. Bulette Mrs. Davis and Mrs. McDonald.

Mrs. Olive, mother of Witt Olive, was introduced as a member of the Pocatello club, the first to be organized.

Mrs. Olive, Mrs. Crosbie and their committee members were highly complimented on the excellence of all arrangements which made the success of the party possible.

### POSTMASTER GENERAL FARLEY SHAKES HANDS WITH VEGAS

A considerable crowd of Vegas people turned out early this morning to see and shake hands with Postmaster General Farley when he arrived for a five minute stay shortly after 7 o'clock this morning.

Among others who greeted the distinguished visitor were National Committeeman Ed. W. Clark, Senator P. A. McCarran and prominent local democrats and officials.

When the train pulled out it carried with it Messrs. Clark, Cahlan and Foley, and Mayor Arnett, who accompanied Mr. Farley to Callente. M. E. Tinch also joined the party as the official barber pro-tem.

## Mines Division Bulletin Ready

SAN FRANCISCO, Oct. 21.—The division of mines, department of natural resources, under the direction of Walter W. Bradley, state mineralogist, announces that the April, 1937 issue of "California Journal of Mines and Geology," comprising chapter 2 of state mineralogist's report XXXIII is now ready for distribution.

The April quarterly has a report by Charles V. Averill, district engineer, on the mineral resources of Plumas county, accompanied by a geologic map of the county. The geologic branch presents a list of preferred mineral names suggested by the Mineralogical Society of America, covering names heretofore inconsistently used. The usual notes concerning Oil Field Development Operations, Statistics, Museum, Laboratory and Library complete the issue.

The price of the April quarterly

is 50 cents which includes shipping charges and sales tax.

It may be obtained from the offices of the Division of Mines, San Francisco, Sacramento, Los Angeles, and Redding, and from the offices of the Division of Oil and Gas in Bakersfield, Taft and Santa Barbara.

### California Mineral Production.

Bulletin No. 112 of the Division of Mines, entitled California Mineral Production and Directory of Mineral Producers for 1935, is also ready for distribution. This bulletin is one of the series of annual statistical reports which have been issued for years. It contains detailed data covering the amount and value of metallic and nonmetallic minerals, subdivided as to fuels, metals,

structural materials, industrial materials and salines both by substance and by counties together with various charts and graphs. A directory of all producers (except for gas and petroleum) which adds much to its value is also included. The properties and uses of the more than fifty mineral substances produced are treated briefly, the whole comprising a condensed compendium of information on the commercial minerals of the state.

Bulletin No. 112 contains 205 pages, bound in paper covers. It may be purchased from the State Division of Mines, Ferry Building, San Francisco, for 80 cents postpaid, and at the above mentioned branch offices of the Division of Mines and Division of Oil and Gas.

## What does a Bank do?

## It Provides You With Complete Financial Service

YOU may never have had occasion to investigate more than one or two of the services a bank renders individuals. Perhaps your experience has gone no further than the savings department. If so, you would find in a discussion with the heads of the other departments many services which would benefit you.
