PAGE TWO

316 South Fourth street, across from grammar school, is a branch of The Mother Church, The First Church of Christ, Scientist, Boston, Massachusetts. Meets every Sunday at 11 a. m. Sunday school at 9:30 a. m. and Wednesday evening at 8:00

Christian Science reading room. 111 North Third street, open week days, except holidays, from 1:15 p. m. until 4:15 p. m. Evnings, except Wednesdays, from 7 until 9 o'clock.

"Truth" will be the subject of the lesson-sermon in all churches of Christ, Scientist, Sunday, Jan. 23.

The Golden Text is from Psalms, 86:15: "Thou, O Lord, art a God full of compassion, and gracious, longsuffering, and plenteous in mercy and truth."

The lesson-sermon includes the earth; for I am God, and there is be ye saved, all the ends of the Bible passage: "Look unto me, and none else" (Isaiah, 45:22).

Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christian Science brings to light Truth and its supremacy, universal harmony, the entireness of God, good, and the nothingness of evil" (p. 293).

LAS VEGAS AGE

George Lang a member of the Las Vegas high school faculty, has been appointed a deputy superintendent of public instruction for the Third district, with headquarters at Lovelock. He will have jurisdiction over the schools in Humbolt, Pershing, Lander and Eureka counties.

Lang received his bachelor of science degree from the University of Nevada in 1930. He continued post-graduate work at Stanford university, earning his master's degree from that institution in 1933. His major work was educational administration. While a student at Stanford he was elected to Phi Delta Kappa, scholastic honorary society. He took an active part in athletics, specializing on the coaching angle .

For the last three and one-half years he has held a position on the faculty of the Las Vegas high school, previous to which he taught four years in the elementary schools of that city.

Work has been started on Clark Field, the new athletic field at the university at Reno.

The ground was purchased last semester and the field will be 400x400 feet and will be used as a baseball and practice football field. The preliminary work is being done through the PWA and consists of leveling, grading, installing a sprinkler system, seeding and landscaping.

Miss Lenore Robinson, a senior in the high school in Overton, has been chosen to represent Nevada at a D. A. R. "good citizen" girl pilgrimage to Washington, D. C., in April. Miss Norma Fabri of Yernington and Miss Jo Wadsworth o? Panaca were named alternates.

The D. A. R. each year pays all expenses of one girl from each state in the Union from her home to Washington and return. It is a wonderful thing for a girl to have such a trip and be able to visit the capitol, the White Hhouse, the Congressional Library, Mount Vernon and all the other historical places.

The contest was conducted by having each high school in the state enter three names, of which Governor Richard Kirman drew the name of the winning student.

Selection of candidatese from the various schools was on the basis of:

1-Dependability, including truthfulness, loyalty and punctuality.

2-Service, including cooperation, courtesy and consideration for others.

3-Leadership, including personality, self control and ability to lead.

4-Patriotism, including unselfish interest in school, community and nation.

Girls enterde were Norma Eather, Eureka; Mary Aberasturi, Austin; Frances Arenaz, Reno: Rae Scott, Elko; Mildred Riggle, Sparks; Kathleen Clemmons, Fernley; Betty Yaw, Wells: Norma Sanders, Montello; Zina Barnum, Las Vegas; Kingston division of the Toiyabe Harriet Knobloch, Fallon; Rebecca Bianchi, Battle Mountain; Norma Fabri, Yerington; Feryn Wilcox, McGill; Mary Day Minola, Carlin; Lnore Robinson, Overton; Elaine Baker, Hawthorne; Lorene Wright, Alamo; Merle Young, Lovelock; Audrey Ashby, Ely; Leila Kirk, Virginia City; Merle Savage, Metropolis; Helen Maroney, Goldfield; Peggy Whelen, Wadsworth; Milka Beko, Tonopah; Lillian Bergvin. Gardnerville; Marva Bunker, Bunkerville; Jo Wadsworth, Panaca, and Helen Everett, Smith Valley.

Vegas Students Will Debate

Four teams will meet in the intramural debate tournament which will commence Jan. 25 in the Education auditorium on the campus at Reno.

The subject chosen is "Resolved: That the National Labor Relations Board Shall Be Empowered to Arbitrate All Industrial Disputes."

The four teams are composed of two debaters each, with two teams to a debate. Vegas is well represented in the personnel of the teams: James Driscoll and Robert Van Wagner vs. Roger Foley and Norrison Beatty, and Arty Ham and David Goldwater vs. Kathryn Devlin and Bill Casey.

Wild Life Of Nevada Told

The following interesting facts about wild life in the Nevada national forest are taken from the Nevada Telegram, bulletin of the forest office at Ely:

The annual fish and game report recently released from the supervisor's o'fice shows that during the past year there has been a satisfactory increase in the number of deer on the 11 divisions of the Nevada national forest. The greatest concentration of deer is on the

Asthma attacks, the doctor's prescription Mendaco removes the cause of your agony No smokes, no dopes, no injections. Ab-solutely tasteless. Starts work in 3 minutes. Sleep soundly tonight. Soon feel well, vears younger, stronger, and eat anything. Guar-anteed completely satisfactory or money back. If your druggist is out ask bim to order Mendaco for you. Don't suffer that the day. The guarantee protects you.

A bridge will be built to allow passage to it near the present Makay training quarters.

Osceola Installs New Machinery

Osceola, one of the oldest mining camps in the state, is to have newer and better equipment for its placer property.

The present pilot plant handles 15 cubic yards of material an hour and the proposed equipment will treat 50 yards an hour an dis expected to be in operation in April.

This season's operations are said to have shown an average of over 95 cents a yard in free gold. The Pan-American pulsatory jig proved successful and a larger size will be installed in the new mill. Gas engines will be replaced by Diesels.

A large reservoir will be dug for fresh water and another for a settling eservoir. Water is removed by Pomona pumps. The district is about 7200 feet above sea level and is being looked over by several well-financed concerns. Edward R. Wagner of Osceola is manager.

unit. Deer on this unit, or any other unit for that matter, have not reached a point where there is danger of overstocking the range and conflict with the grazing of domestic stock.

During the hunting season of 1937, hunters were directed into the areas of the heaviest concentration of deer. and the results clearly indicated that the numbers of deer can be held to the carrying capacity of the range in this manner. Elk showed a satisfactory increase on the Charleston division and on the Schell creek division where the only two herds of elk on the forest are located. A range reconnaissance was completed on the Charleston division the past year and a game management plan will be completed this winter. The plan, among other things, will provide for range water development in order to provide for fuller utilization of available wild life forage, and in order that game will not have to trail long distances to watering places.

The 1937 census of game animals on the 11 divisions of the Nevada forest shows the following: 160 elk, 1 beaver, 610 badger, 1,265 lynx or wild cats, 130 mountain sheep, 435 fox, 1,725 ermine, 107 mountain lions, 9,950 mule deer, 20 mink, 6,090 coyotes, 5,275 porcupines.

A total of 730 deer were killed by 1,441 hunters, and 595 deer and 10 antelope were killed by predatory animals.

Figures show that 1,678 coyotes, 8 mountain lions, 232 lynx or wild cats, 246 porcupines, and 62 fox were killed by hunters of the bureau of biological survey, local hunters and forest officers.
